HERRING'S

PATENT CHAMPION

FIRE & BURGLAR PROOF
SAFES.

FIRE & BURGLAR PROOF
SAFES.

The great interest manifested by the public, to procure more perfect security from Fire for valuable papers, such as Bonds, Mortgages, Deeds, Notes, and Books of Account, than the ordinary Safes heretofore in use had afforded, induced the subscribers to devote a large portion of their time and attention, during the past seventeen years, in making improvements and discoveries for this object, and they now beg leave to assure their numerous friends and the public generally, that their efforts have been crowned with complete success, and now offer their

IMPROVED HERRING'S PATENT

WORLD'S FAIR PREMIUM FIRE-PROOF SAFE,

AS THE

CHAMPION SAFE OF THE WORLD,

HAVING BEEN AWARDED MEDALS AT BOTH THE

WORLD'S FAIR, LONDON, 1851, AND IN NEW YORK, 1853,

AS SUPERIOR TO ALL OTHERS.

It is now undoubtedly entitled to that appellation; and secured with HALL'S PATENT POWDER PROOF LOCKS (which was also awarded medals as above,) forms the most perfect Fire and Burglar Proof Safe ever offered to the public.

The subscribers also manufacture all kinds of Boiler and Chilled Iron Bank Chests and Vaults, Vault Doors and Money Boxes, or Chests for Brokers, Jewelers, and Private Families for Plate, Diamonds and other Valuables. And are also Patentees (by purchase) and manufacturers of

JONES' PATENT PERMUTATION BANK LOCK

AND

CRYGIER'S PATENT CHANGEABLE LOCK, WITHOUT KEY OR KEY-HOLE.

FAIRBANKS' SCALES,

AND

MILL FURNISHING GENERALLY.

Plans, Specifications and Estimates furnished when desired, and the construction of Steam and Water Mills contracted for entire.

STEAM ENGINES, BOILERS, &c.

The subscriber having obtained the agency for the sale of Steam Engines and Boilers, from the manufactory of

GOULDING, BAGLEY & SEWELL, Watertown, N. Y.,

Would invite the attention of purchasers to their superior merits of style, workmanship and powers; also, their very low prices. The following is a list of prices of Engine and Boiler, together with Heater, Water and Steam Pipes, Cocks, Valves, Arch Castings and Grates, complete and ready for use, delivered in Chicago:

5 horse power.....	\$500	20 horse power.....	\$1,250
8 " ".....	575	25 " ".....	1,500
10 " ".....	725	30 " ".....	1,675
12 " ".....	800	35 " ".....	2,000
16 " ".....	1100	40 " ".....	2,200

And in like proportion for larger sizes as required. Every Engine is furnished with

Judson's Patent Governor Valve.

For Flour Mill we confidently recommend them as superior to any other style of Engine, and they will

Save from 25 to 50 per cent. in Fuel,

Over the usual class of boilers at use in the West. We shall keep an assortment of different sizes at our establishment, where they may be examined and the necessary information obtained regarding them. Competent men will, if desired, be furnished to set up and start Engines in any part of the country. We also supply

WATER WHEELS, SHAFTING, GEARING, &c.,

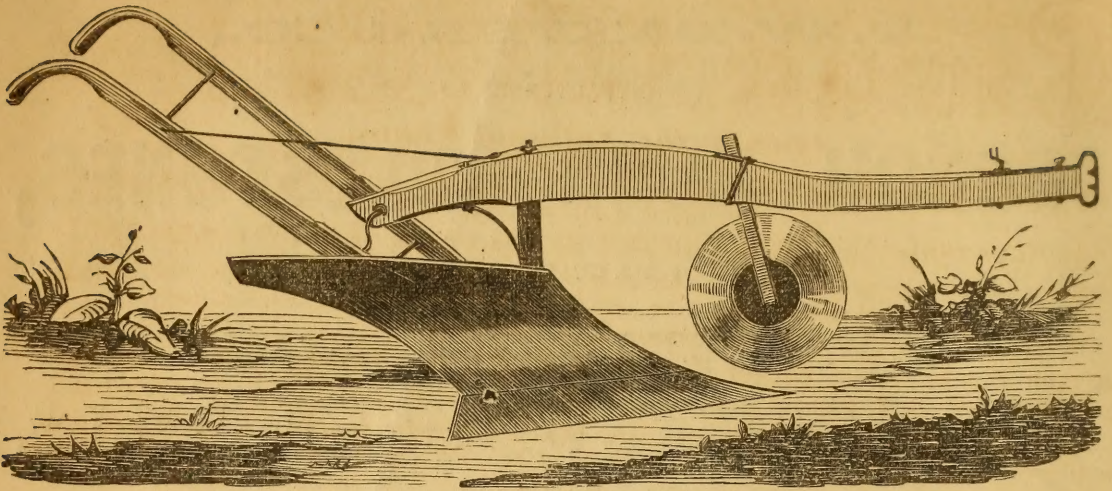

AT VERY LOW PRICES.

rates.

BRYANT, BELL & STRATTON'S

CONSOLIDATED CHICAGO

Commercial College

Link in the National Chain,

LOCATED AT

CHICAGO, NEW YORK, PHILADELPHIA, ALBANY, BUFFALO, CLEVELAND,
DETROIT AND ST. LOUIS.

SCHOLARSHIP GOOD THROUGH THE ENTIRE CHAIN OF EIGHT COLLEGES.

Consolidation of "Bryant & Stratton's Mercantile College" and "Bell's Commercial College,"
now conducted as one Institution, which is the recipient of an extraordinary
and unprecedented patronage.

Larmon Block, - corner Clark and Washington streets, - **Chicago.**
H. B. BRYANT, D. V. BELL, H. D. STRATTON, - PRINCIPALS AND PROPRIETORS.

By this consolidation the collegiate course of this Institution is greatly enlarged, and with
the improvements which the business experience of the Principals enables them constantly to
introduce for the benefit of their students, it is made greatly superior in all respects.

FIRST PREMIUMS AWARDED TO THIS COLLEGE,

At the late United States Fair in Chicago, for Best Business Penmanship and for Best
Bookkeeping.

DEPARTMENTS OF BOOKKEEPING AND ACCOUNTS,

Organized and conducted upon the Counting Room System, the Halls of study being fitted up
with appropriate Counters, Desks, etc., as in real business, and the student at once introduced
to the practical workings and routine of business as conducted in Banks, Counting Rooms,
Railroad Offices, etc.

COMMERCIAL LAW.

By special arrangement with the Law School of the University of Chicago, the sessions of
which are held in our College rooms, our Students are privileged to attend all the lectures in
this department, and to receive instruction in this important branch of the course, from the
able, accomplished and learned Professors of that School; and it affords us much gratification
to be enabled to offer them these extraordinary and superior advantages.

"SPENCERIAN" PENMANSHIP.

This famous system—the best known to the world—is our standard.

 Circular and catalogue of 80 pages furnished gratuitously on application to the
undersigned. **BRYANT, BELL & STRATTON.**

PHELPS HOUSE,

FULTON CITY, - - - ILLINOIS.

GEORGE W. SAYRE, PROPRIETOR.

This First Class house has been thoroughly renovated and re-furnished. The Proprietor
is now prepared to accommodate his friends and the traveling public. The house is retired
from the noise and confusion of the business portion of the city, and the location elevated and
pleasant, commanding a view of the great Mississippi River.

PRICE \$5.

φ

REMARKS.

The Publishers, in presenting the ILLINOIS STATE BUSINESS DIRECTORY to the public, feel confident that it will fully supply the demand for a work of this character, the need of which has been so long realized by the Mercantile and Business community, both of the State of Illinois, as well as many of the principal cities abroad.

To an *unrelenting Public*, the Publishers would respectfully propound the following questions: How have you contributed towards the support of this work? Have you carefully examined it, casting aside all prejudices? Is it what it purports to be, a State Directory? Do not, therefore, not having examined it in person, express an opinion of its inaccuracy, *as in many instances, those that contribute the least towards the support of similar publications, are the first to condemn them*, for some momentary and perchance imaginary error.

In preparing a work so mammoth in all its detail, both from its mere alphabetical arrangement and collating of names, and classification of business alphabetically by towns, as well as from the invaluable and endless amount of information contained in the Appendix, forming in brief, a synopsis of the Topographical, Agricultural, Mining and Manufacturing interests; Banking, Joint Stock, Insurance, Railroads and other Incorporated Companies, full and replete, with Statistical Tables, Exhibits, etc., of the entire State, it would be strange indeed, if (after the ordeal of the strictest scrutiny and examination the work will have from its many patrons,) some errors should not be detected which have escaped the observation of the compilers.

The labor and expense attendant on the production of so large a work (when issued in so expensive a style, can only be realized by those prosecuting to completion, a similar undertaking.

The price of the work, five dollars, may by some be deemed an extravagant charge for a Directory, but they will at once be convinced to the contrary, when we assert that the cost of the work far exceeds the amount realized from subscribers, and were it not for the very liberal bestowal of patronage in the way of Advertisements, the Publishers would, indeed, fall far short of a remuneration for their outlay and labor.

It is confidently believed to be a truthful representation, and in every respect, as perfect a STATE DIRECTORY as can be prepared, and for their endorsement and approval, it is, with these few remarks, most respectfully submitted to the PUBLIC.

BY THE COMPILERS.

Entered according to Act of Congress, in the year 1860, by

J. C. W. BAILEY & CO.,

In the Clerk's Office of the District Court of the United States, for the Northern District of Illinois.

ILLINOIS MUTUAL FIRE INSURANCE COMPANY,

INCORPORATED IN 1839.

PRINCIPAL OFFICE AT ALTON, ILL.

CAPITAL, - - \$1,000,000.

Stores and Merchandise, Dwelling Houses

And Furniture; Barns and Hay and Grain;

FIRST CLASS MILLS, SHOPS AND OTHER BUILDINGS,

WITH THEIR CONTENTS,

INSURED AGAINST LOSS OR DAMAGE BY FIRE.

This Company has now been in existence over twenty years—does not issue policies out of this State—has paid nearly half a million dollars for losses—has furnished Insurance to its members for less than two-thirds the price charged by the best Stock Companies. It has the largest and best secured Capital of any Insurance Company in the West.

Arrangements have now been completed, which enable the Directors to pay all losses within ninety days. Merchants can now have their stocks insured in the Illinois Mutual, and in case of loss, actually get their money as soon as it is promised by any other Company.

To the Farmer and the Mechanic this Company has become a State Benevolent Association, in which, at a moderate cost, their homes and shops may be insured against the ravages of fire, with a certainty that, if destroyed, they will receive the whole amount insured, without litigation or unnecessary delay.

It has become the Insurance Company for the People of Illinois,

Annually saving large sums of money in the State that would otherwise be taken out by foreign Companies. With all these inducements, who can now afford to remain uninsured in the Illinois Mutual?

BOARD OF DIRECTORS.

 maine.

AURORA INSTITUTE AND CLARK SEMINARY.

AURORA INSTITUTE

AND

CLARK SEMINARY

Is located on the Chicago, Burlington and Quincy Railway, at Aurora, Kane county, Ill., forty-three miles from Chicago.

The building, made of stone, at a cost of \$70,000, is fire proof, and has, from Kitchen to Laboratory, the conveniences that much experience and observation in the best Eastern Institutions could suggest, and Western enterprise and capital provide. Provisions are made on a scale so extended as to afford a complete division of labor, and insure the greatest excellency in the departments of instruction, and the greatest economy to the pupils.

The Institution is conducted on the principles of a well-regulated Christian family, and lays claim to patronage in its *Moral Discipline*, its *Sound Spirit of Culture*, and its *reasonable cheapness of expense*.

Special prominence is given to the

FEMALE DEPARTMENT.

Students are now in attendance from *twelve* different States, and *seventy-eight* different towns.

COURSES OF STUDY.

The Common English Branches receive special attention, nothing is allowed to supercede them. Two Graduating Courses—a Scientific and a Classical—are arranged for both ladies and gentlemen. There is a College Preparatory Course aiming at special thoroughness in Latin, Greek and Mathematics. The commercial Course, is extensive and thorough, and at low rates of tuition.

Lectures are given on Physiology, Philosophy, Chemistry, Geology, Commercial Law and Ethics, Business Habits, Manners, Morals, etc.

The Modern Languages, Music, Drawing, Painting and Ornamentals are in the hands of skillful teachers.

There are fourteen experienced Professors, Teachers and Lecturers; a full set of Wightman's Philosophical Apparatus, Globes and Maps; and three flourishing Literary Societies.

A TEACHERS' CLASS

is formed for those preparing to teach.

Board, room, fuel and Common English, \$32 per quarter; \$128 per year.

For Circular giving full information, address the Principal, G. W. Quereau, A. M. Aurora, Kane Co., Ill.

BOARD OF TRUSTEES.

FINANCIAL AGENT.

REV. C. M. WOODWARD.

IMPORTANT TO FARMERS!

**BURR'S COMBINED GRINDING MILL,
CORN SHELLEK,**

CORN AND COB CRUSHER.

THREE VALUABLE MACHINES IN ONE.

The attention of farmers and all others interested in farm mills is particularly invited to this new and unrivalled Combined Mill, which is the latest and best improvement, and the most simple, durable and efficient farm mill ever invented.

This is a new invention and well worthy the attention of the public, the farming portion in particular; combining as it does three valuable machines in one. The combination has been pronounced by all who have seen the mill to be the best ever made. Each machine makes a necessity for the other. It is readily attached to steam, wind, water, or horse power, and is adapted to the shelling of corn, shelling and crushing the cob and grinding all kinds of grain for feed. It grinds with great rapidity, either coarse or fine, as may be required. It makes a superior article of meal and flour for family use. It will shell clean and run into bags, ready for market, from 50 to 75 bushels per hour. It will crush from 15 to 20 bushels of corn and cob per hour. It is light and portable, weighing about 250 lbs.; yet it is strong and durable, it being made entirely of iron except the hopper on the grinder. The grinding surfaces are also very durable, being chilled iron as hard as hardened cast steel, and when worn out can be replaced without the aid of a mechanic, at the trifling cost of *two dollars*. An examination of this mill is solicited.

This mill has *two hoppers*, and grinds, shells and crushes separately, or grinds and shells, grinds and crushes at the same time, without attaching or detaching any portion of the machine. One of these mills can be seen in operation at the car factory in Batavia, Kane Co., Ill. Call and see it. P. O. Box, 137.

BURR & LATHAM.

"THE PROGRESS AND PROSPECTS OF CHICAGO."

It is the intention of Richard Edwards, Esq., soon to issue an Illustrated volume, styled "THE PROGRESS AND PROSPECTS OF CHICAGO," a work of reference, and full of valuable information, exhibiting the natural resources, commercial, railroad and manufacturing advantages of Illinois, and her flourishing cities and towns generally, and of the great city of Chicago particularly.

Natural advantages alone, however, never build up great emporiums; but these, in addition to the exertions of their merchants and business men—who are pushing, enterprising, far-seeing, and public spirited—who possess city pride and take delight in doing all in their power to forward their city and State in population, wealth and influence,—combine to render sure and to establish the prosperity of the same on a lasting basis.

Such being the character and object of Mr. Edwards' proposed work, we take pleasure in recommending it to the liberal support of our fellow citizens, not only of Chicago, but of the whole United States.

SLOAN'S DOUBLE CHAIN OF AMERICAN AND FOREIGN COMMERCIAL COLLEGES.

THE GREAT CENTRAL,

The Oldest and Most Extensive in the West.

Chartered by the Illinois Legislature, Located in the Methodist Church Block,
CHICAGO, ILLINOIS.

A Beautiful Marble Building, in the Centre of Business, and most delightful portion of the city.

Arrangements are perfected and during the ensuing year Colleges will be established at the following points in the United States, viz: St. Louis, Mo., New Orleans, La., Cincinnati, Ohio, Philadelphia, Pa., New York, Boston, Detroit and Buffalo. Foreign: Liverpool and London, Paris, St. Petersburg, and without doubt, at many others, both in our own and in Foreign countries. The Double Chain has both the capital as well as the ability, intelligence, energy and enterprise to make the Colleges comprising it the only ones worth patronizing, either in this or in the old world.

THE BOOK-KEEPING DEPARTMENT

Contains over two hundred and fifty distinct sets of manuscript books, adapted to every kind and variety of business.

THE COLLEGE.

The rooms appropriated to the College purposes in this splendid block, are the largest and most elegant of any commercial institution in the country, and are furnished in a most superior manner. Every class of business, including Banking, Exchange, Insurance, Steamboating, Manufacturing, Commission and Forwarding, Retail and Jobbing, Hotel and Railroad, is represented by appropriate offices, counting rooms and desks, which are supplied with all the various practical forms used in well regulated establishments.

ROUTINE OF BUSINESS.

The Pupil, after securing the elements of Penmanship and Bookkeeping, which only require a very short time, as everything in the elementary course is reduced to the utmost simplicity, is provided with a capital consisting of cash, real estate, stocks or merchandize, corresponding with the nature of the business in which he is to engage, and opens his books accordingly; deposits his money in the Bank, receives his Bank book, imports and forwards merchandize, buys and sells ships, stocks and real estate, purchases and ships goods on his own account and joint account, receives and manages estates, makes out all his notes, drafts, bills of exchange, acceptances, account sales, accounts current, and computes all the commercial calculations connected with his transactions, as the business requires, and balances his books weekly. In a word, every variety of business is appropriately represented, and *actually performed* by the learner, until he becomes *practically* familiar with the process of opening, conducting and closing books and the whole routine of mercantile transactions, from the detail of a country store to the more complicated operations of the highest banking institution.

From the above brief synopsis of this new mode of instruction, it will be seen at once, that the grand desideratum of a Mercantile Education is attained, viz: *practice* as well as theory.

This system has grown out of a long experience as practical accountant and teacher, and is so perfect in its actual adaptation, that every student who pursues the course faithfully, will, it is confidently believed, be able, in an incredibly short space of time, to act as book-keeper in the highest establishment, without any misgivings as to his ability. It is the design of the proprietor, without regard to labor or expense, to make this Institution, in every respect, the first in the world.

PERSONAL SUPERVISION.

The unprecedented success of Sloan's Commercial College is owing, in a great measure, to the immediate supervision and personal instruction of the President. He reviews every student over the entire course, previous to his graduation, and shows him how to apply practically the knowledge he has obtained.

LADIES' DEPARTMENT.

This is the first Commercial College in America, in which ladies pursue a regular commercial course. There are now a large number attending. This College turned out the first Female Commercial Graduates in America. They have a splendid apartment, separate from the gentlemen.

First Premiums Awarded to this College at the late United States Fair, in Chicago, for Best Business Penmanship and for Best Book-keeping.

PERMANENCY OF THIS COLLEGE.

The sound footing, unbounded reputation, and flourishing condition of Sloan's Central Commercial College, would be a sufficient guarantee of its permanency, but in addition, the President has been nearly twenty years in the business, and is determined that Sloan's Commercial College shall not only not cease to exist during his life, but has made such arrangements, that were he to die to-morrow, the College would not be interrupted in its course; besides, the unlimited Capital at his control makes it impossible that its prosperity should be effected by the times. This matter being generally known, adds much to its unprecedented patronage.

SITUATIONS.

The unbounded confidence placed in this College by the business public, makes it the place from which selections are made for all the various branches of business, Book-keepers, Salesmen, etc., etc. A young man of good character, after having graduated at this College, will take precedence over one from any other College in the world.

TERMS.

For a full course of Instruction in all the Departments of Book-keeping and Accounts, Commercial Calculations, Commercial Law and Lectures, Practical Penmanship, with privilege of Review, of the Library, and of the Institution generally, time unlimited,.....\$35 00
For Ladies' Department, same Course,.....25 00
Applicants please enclose two postage stamps.

Chicago Evening Journal

DAILY, TRI-WEEKLY, & WEEKLY.

CHAS. L. WILSON & Co., Publishers & Proprietors.

The JOURNAL gives, each day, the telegraphic news from all sections of the country; Home and Eastern Market and Financial Reports; all Local Matters of public interest; a comprehensive summary of General News; while its Literary Department is under the charge of B. F. TAYLOR, Esq., widely known as one of the most polished writers of the day. It has also regular correspondents at Washington and New York, and an efficient corps of Reporters and Travelling Correspondents.

The Daily Evening Journal, containing full telegraphic reports of news and the markets, up to 2½ o'clock P. M., each day, will be mailed to subscribers as follows:

Single Copies.....\$7.00
Five or more copies to one P. O. address, each.....6.00

The Tri-Weekly Journal, embraces the inside pages of the DAILY JOURNAL, each number containing the impression, without change of matter, of the forms of two Daily papers. This is furnished as follows:

Single Copies.....\$4.00
Three or more copies to one P. O. address, each..... 3.00

The Weekly Journal is printed on a mammoth sheet, containing *thirty-six* closely printed columns, embracing most of the matter of general interest published in the DAILY JOURNAL. It has also a Weekly Report of the Grain and produce Markets of Chicago, carefully prepared by the Journal Reporter, and a statement of Monetary Affairs, revised by an experienced Banker. It is mailed every Thursday in time for it to reach its subscribers by the close of the week.

TERMS, PAYABLE IN ADVANCE:

Single Copies.....\$1.50
Clubs of Ten or more, each 1.00

And a gratuitous number to the person who gets up the club.

No. 112 DEARBORN ST.,
CHICAGO.

SHEAHAN & PRICE,
PROPRIETORS.

The Daily Circulation of the Chicago Times

In the City of Chicago

IS GREATER THAN THAT OF ANY OTHER
PAPER PUBLISHED.

It circulates among all portions of the community, and is taken
exclusively by a very large portion of the public.

IT IS A BOLD INDEPENDENT PAPER

Advocating the Right freely and with vigorous independence.
It has one Department devoted exclusively to

COMMERCIAL & FINANCIAL SUBJECTS, REPORTS, &c.

And has another devoted to RAILROAD INTELLIGENCE, and proceedings of Railroad
Conventions, Meetings, etc.

THE GENERAL NEWS DEPARTMENT

Embracing Political, Local and Current News Items, is conducted with close attention and
enterprise.

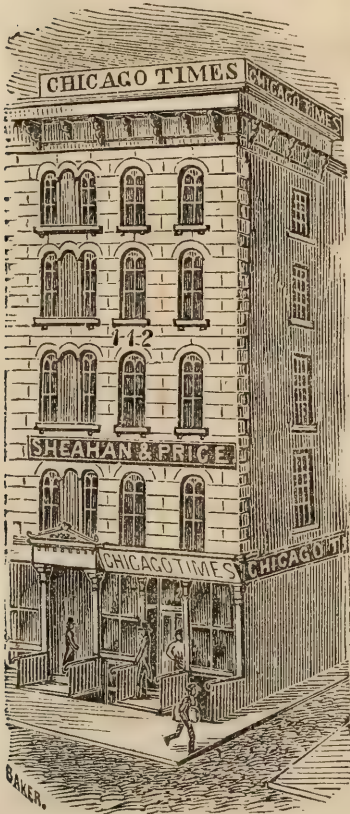

THE DAILY PAPER is mailed to subscribers at the low price of SIX DOLLARS
per annum, invariably in advance; and delivered to City subscribers by Carriers at One
Shilling per week.

THE WEEKLY PAPER is issued every Thursday morning, and sent by mail at
\$1.50 per annum; or in clubs of ten or more for ONE DOLLAR PER COPY, per annum

BOOK & JOB PRINTING.

Connected with the Newspaper Establishment is a very large and extensive BOOK AND JOB
PRINTING ESTABLISHMENT, in which every facility exists for the rapid and faithful exe-
cution of all descriptions of Printing, particularly **RAIL ROAD WORK.**

PRESS & TRIBUNE

JOB PRINTING

COMPANY,

51 CLARK STREET, CHICAGO.

WM. H. RAND, Superintendent.

The attention of Railroad, Steamboat, Manufacturing and other corporations or companies, and business men throughout the North-West is directed to our facilities for executing any description of

BOOK AND JOB PRINTING

Which are such as to enable us to fill the largest orders, at short notice and low prices. We give particular attention to all kinds of printing required by

SAVINGS BANK ASSOCIATIONS
MANUFACTURING COMPANIES,
RAILROAD CORPORATIONS,
INSURANCE COMPANIES,
LOAN FUND ASSOCIATIONS,
TOWN CORPORATIONS,
RELIGIOUS SOCIETIES,
AGRICULTURAL SOCIETIES,
BENEVOLENT SOCIETIES,
GAS LIGHT COMPANIES,
TELEGRAPH COMPANIES,
COLLEGES, ACADEMIES,
LIBRARIES, SCHOOLS,
CHURCH ORGANIZATIONS,
ETC., ETC.

We have large Fonts of BOOK Type, to which we are constantly adding the new styles which appear. Our Book and Pamphlet work is printed on the celebrated Adams' Press, and the sheets smoothly pressed on Hoe's Hydraulic. We spare no pains to make this department of our business fully up to the demands of the times.

Decorative Card and Poster Printing,

Show Cards, Handbills, Certificates, Etc.,

In one or many colors, got up in the highest style of the art.

INSURANCE POLICIES AND APPLICATIONS, BANK CHECKS, NOTES AND DRAFTS

Handsomely printed on nice paper and bound to order.

BLANKS USED BY STATE, COUNTY AND CITY OFFICERS,

Furnished at short notice.

Parties at a distance in want of Printing are invited to correspond. Orders solicited from any part of the country by mail or express. Estimates will be made out and forwarded upon receipt of specifications.

WM. H. RAND, Sup't.,

51 CLARK ST., CHICAGO.

THE CHICAGO Press and Tribune

A DAILY, TRI-WEEKLY AND WEEKLY JOURNAL

DEVOTED TO

News, Commerce, Politics, Agriculture, Science and Literature,

EDITED AND PUBLISHED AT CHICAGO BY THE

PRESS & TRIBUNE COMPANY.

J. L. SCRIPPS, WILLIAM BROSS, C. H. RAY, J. MEDILL, A. COWLES,

Editors and Proprietors.

FURNISHED TO SUBSCRIBERS AT THE FOLLOWING RATES:

DAILY, - - in advance, by Mail, - - - -	\$7.00 per annum.
TRI-WEEKLY, " " - - - -	4.00 "
WEEKLY, single subscribers, in advance, - -	1.50 "
" two copies, " - - - -	2.50 "
" four copies, " - - - -	5.00 "
" five copies, " - - - -	6.00 "
" ten copies, " - - - -	10.00 "
" twenty copies, (and 1 to getter up of club,) -	20.00 "

THE CHICAGO PRESS & TRIBUNE is designed to be a full and fair exponent of the GREAT NORTH-WEST. To that end it keeps constantly in the field a large and efficient corps of assistant editors, reporters, and correspondents, who are engaged in procuring, systematizing and collating all manner of information respecting every locality embraced in the North-Western States and Territories. Articles of this description appear in every issue of our paper, and have already made for it a reputation in this respect second to no other paper in the whole country.

In price and size of sheet, amount and freshness of intelligence, variety and value of information, fullness and accuracy of Commercial matter, and in whatever else goes to make up a first-class Newspaper, we challenge comparison with any other journal East or West.

In Politics, the PRESS & TRIBUNE is on the side of FREE LABOR. As an exponent of the North-West, which has been made great through free labor, it could not successfully fulfil its mission, were it to remain neutral on so vital a question.

Parties abroad, who may desire to advertise in a paper having a general circulation throughout the North-West, will find the PRESS & TRIBUNE the best possible medium of communication.

Its circulation is larger than that of any other paper West of the seaboard cities.

 Specimen numbers will be sent by mail when requested.

PREMIUM TEETH

DR. J. A. KENNICOTT,

Having been awarded EIGHT PREMIUMS, including FIVE GOLD MEDALS, in three successive years, for the

“BEST DENTAL MECHANISM,”

Confidently invites attention to his superior style of

ARTIFICIAL TEETH

And his peculiar method of restoring the natural organs to their original form and usefulness, by

FILLING WITH SOLID GOLD.

Dr. KENNICOTT is prepared to supply his patrons with all the

REAL IMPROVEMENTS IN THE DENTAL ART!

INCLUDING THE CELEBRATED

CONTINUOUS GUM TEETH.

The advantages of this invention are PERFECT CLEANLINESS and freedom from any metallic or other unpleasant taste, great strength and durability, and a

TRUE AND PERFECT COUNTERFEIT OF THE NATURAL ORGANS.

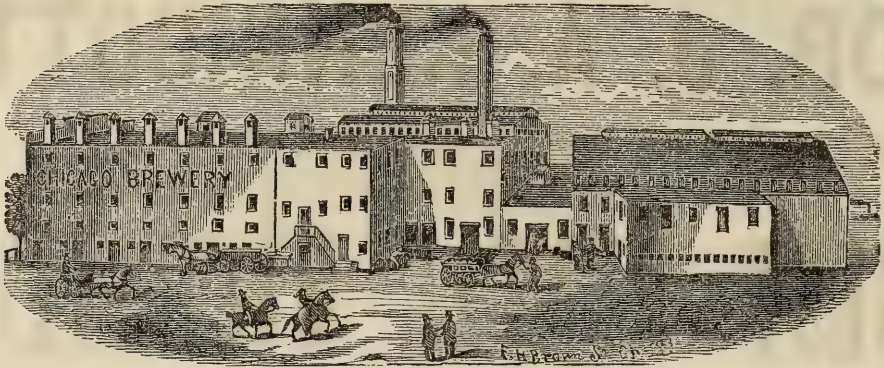

The teeth are secured to the plate by means of a strong mineral cement, which forms a solid union of the teeth and plate, and an EXACT IMITATION OF THE NATURAL GUMS.

EYE AND EAR
SURGERY.

DR. UNDERWOOD, Oculist and Aurist,

124 Randolph St., Chicago, Ill.

Dr. U. is a regular Physician of the Old School, and has devoted his whole professional life to Ophthalmic and Aural Surgery, giving sight to the blind, and hearing to the deaf, and now stands unequalled by any specialist for his science, skill and success. Dr. U.'s operations upon the Eye and Ear, many of which were of a difficult and dangerous character, and all which have been performed with complete success, has attracted patients from all parts of the Union, and given him a reputation as an eminent and skillful operator never before attained by any specialist on the continent.

A Treatise on the Eye and Ear, which will contain over four hundred pages, now preparing and will shortly appear.

Prescriptions sent to patients at a distance, where surgical operations are not required.

Felt & Composition Roofing

BY

RICHARD J. RUNDELL.

The Proprietor having had several years' EXPERIENCE in this business, previous to nearly four years' in this city, feels confident in recommending the same to builders and others.

COAL TAR, FELT & COMPOSITION

For Sale in quantities to suit Purchasers.

Having the contract from the Gas Company of Chicago for all the Coal Tar they make, and being engaged in manufacturing Roofing Material, feels safe in saying to Roofers and others, that he can furnish the above materials

CHEAPER THAN ANY OTHER PARTIES IN THIS CITY.

"BILLINGS' PATENT PORTABLE SPRING BOX BED BOTTOM."

Factory, 170 Adams Street, Chicago.

This Spring Bed was patented in August, 1859, and has already taken the First Premiums at the State Fairs of Maine, Massachusetts, Missouri and Illinois. It is the only Spring Bed that is invariably level with one or more persons on it. For durability, cheapness, and ease of handling, they are unequalled. It is pronounced by all who have used it, without exception, to be the most perfect Bed in the market.

County and State Rights for sale, on application to C. C. MARSH, Box 154, Chicago.

LANE'S
PATENT
MOLE DRAINING

Draining may be done with our Machines, in a permanent manner, at one-tenth the cost of Tile Draining. The durability so far, by six years' test in good clay sub-soil, is fully equal to the Tile.

The Ditch is formed at a depth of from 3 to 5 feet below the surface, by drawing forward the Mole or ditch former, which presses the clay to sides and top, packing the clay harder than the best pressed brick. The top of the ditch is arched to prevent its falling down.

Our MOLE conveys an extra amount of already refined clay from the sides to the top of the ditch, after the colter has passed, and packs it there, over the colter slit, giving it, as it were, a second coat of plastering, thus rendering the arch the most substantial portion of the ditch. *No other Mole can do thus.* No sign is left at the surface of any ditch, except the mark of the roller, which is soon obliterated. The hole in the ground remains at silent work so long as there is water above it; even all through our cold winters many of them keep up the discharge, furnishing stock water for the farmer as well as keeping his ground dry for the plow as soon as the frost is gone. The depth is easily regulated, and a regular grade run from outlet to fountain.

Two men and two yoke of oxen will make from 60 to 125 rods per day—the mole being drawn forward with a strong capstan, by the winding process.

We warrant Satisfaction in all cases, and invite parties wanting further information to address us. Rights for Sale by State, County or Town.

RUGG'S Mowing and Harvesting MACHINE. OTTAWA, ILLINOIS.

FIVE Reapers Entered, Rugg's Machine Ahead!

Secretary's Report.

The following is the Secretary's Report of the Reaper Trial on the farm of the Hon. James Curtiss, two miles west of Urbana, Illinois, July 22d, 1857:

THE GROUND.—About 9 o'clock A. M., we came on the ground selected for the Reaper Trial. It is a field of winter wheat on breaking of last season, containing two hundred and fifty acres. That selected for trial, stood well, was even throughout, and would turn fifteen to twenty bushels per acre. Mr. C. estimated it at fifteen bushels, while many good judges put it at twenty. The morning was cool and cloudy, giving promise of a comfortable day for trial. Quite a large number of farmers were on the ground at this early hour, and soon the machines that were to try their powers, were seen coming over the rolling prairie.

THE REAPERS ENTERED.—First we have the Self-Raker of Seymour & Morgan, of Brockport, N. Y., under charge of D. D. White, General Agent. It was drawn by two horses.

Next we have the centre draft machine of G. H. Rugg, of Ottawa, Ill. This is the one that won so much applause, both in wheat and grass, at the late trial at Salem. The sickle is obtuse scalloped sickle edge, with very fine serratures, and cuts six feet one inch

inside of the guards, which are of wrought iron three-fourths of an inch square. Alonzo Lyons of Urbana, is the Agent having it in charge, assisted by Mr. A. L. Vowel, who has also operated it at the Salem and St. Louis trials. But few of these machines have been sold here, and the general impression was against them on account of the position of the team. Had cutting been the order of the day, large odds would have been against it in the morning, but it will be seen that before the close of the trial that the odds were as largely in its favor. This was driven by two horses.

Next came in time the automaton of J. S. Wright & Co., Chicago, under the charge of W. C. Barrett & Co., West Urbana, Agents, and operated by Mr. Webster, of Bloomington, and Mr. Dexter. No one can see this machine in motion without admiring the life-like evolutions of the raking apparatus, and regret that the giant genius of Atkins was so early stilled in death. But his name will long live when wave the ripened harvest, on the wide savannahs of the West. This was scalloped sickle edged, iron wrought guards. It cuts five feet two inches inside of guards, and was driven by four horses.

Next, came the Manny Reaper, by J. N. Boutwell, Agent, West Urbana, also driven by four horses. Over sixty of these machines have been sold by Mr. B., decidedly sharing with the Atkins' reaper the general admiration. The sickle is acute scalloped edged, after the pattern of the Hussey Cutter, cutting over cast guards, which are plated to an even surface, giving a close fit and enabling it to cut grass without clogging, with a smooth knife.

Mr. Curtiss entered one of Danford's Reapers, but it broke down early in the trial, and no word was made of its operations.

A Reaper is made at Urbana, but from some cause it was not on the ground. Whether the makers had no confidence in sustaining its reputation, in competition with machines of such world-wide reputation as those on the ground, or a lack of that public spirit laudable in such trials, we know not; but we do know that a great many farmers were disappointed in its non-appearance.

PHOTOGRAPHS.
DAGUERREOTYPES.
STEREOSCOPES.

THE SUBSCRIBER takes pleasure in announcing to his friends and patrons, that he has removed his Gallery from Metropolitan Block, to the spacious store, second floor, 113 Lake St. This is the most complete, extensive and commodious Gallery of the kind in America. The light and arrangements for making pictures has been built by himself, and he feels full assurance that, with its advantages, he will be able to produce better pictures than ever before.

ESPECIAL ATTENTION is directed to all those in want of *perfect* likenesses to his

NEW STYLE OF PHOTOGRAPHS IN NATURAL COLORS,

Discovered by and known only to himself, which beauty and perfection far surpasses any other style of sunlight picture. Call and see.

Every kind of sun and portrait likeness in the highest and most beautiful style of art. All are invited to visit the new rooms.

BABCOCK & BROTHER,
St. Clair Nurseries,

SUMMERFIELD, ILL.

Cultivate and have on hand for sale at each regular planting season, a large and extensive assortment of

FRUIT AND ORNAMENTAL TREES, PLANTS, &c.

The attention of WESTERN PLANTERS and dealers is especially invited. Our stock is grown upon new land, and free from all disease, and our varieties are selected with especial reference to our location and the wants of our customers, and for beauty and thriftiness of growth cannot be surpassed by any similar establishment West or elsewhere. We enumerate in part:

APPLES, Standard and Dwarf,

PEARS, Standard and Dwarf.

CHERRIES, Standard and Dwarf.

PLUMS.

PEACHES.

APRICOTS,

NECTARINES

QUINCES.

GRAPES.

CURRANTS.

RASPBERRIES.

BLACKBERRIES.

GOOSEBERRIES.

STRAWBERRIES.

DECIDUOUS, ORNAMENTAL TREES, EVERGREENS,

ROSES, FLOWERING SHRUBS, BULBOUS FLOWERING ROOTS,

ETC., ETC., ETC.

Conveniently located on the O. & M. R. R., Twenty-five miles from St. Louis.

CORRESPONDENCE AND AN INSPECTION OF STOCK INVITED.

PRICES AS LOW OR LOWER THAN ANY SIMILAR ESTABLISHMENT.

CATALOGUES MAILED.

BABCOCK & BROTHER.

GENERAL SKETCH OF ILLINOIS.

Messrs. J. C. W. BAILEY & Co.—Gentlemen: Hearing that you were about to publish a Directory of the State of Illinois, I thought I would send you a general sketch of the State, which I have prepared. It may be more voluminous than you would desire, but in collecting I have condensed it as much as a glance of the subject matters embodied therein would admit of. I have much interesting matter which it would be impossible for me to crowd into this sketch without making it too long for your purpose. If you desire me to correct the proof, I will do so with pleasure.

Yours Respectfully,

State Normal University, Bloomington, April 20, 1860.

E. C. HEWETT.

The limits of this State are easily defined; on the north, the parallel of 42 deg. 30 min. forms the entire boundary from the Mississippi to Lake Michigan, separating from the State of Wisconsin; on the east, Lake Michigan forms the boundary for about sixty miles, to the meridian of the town of Vincennes; thence the line extends south on that meridian to the Wabash, thence down the Wabash to its mouth; the meridian and river above-named separate from the State of Indiana; the south boundary is wholly formed by the Ohio river, to its mouth, at about 37 deg. N. latitude, separating from the State of Kentucky; on the west, the great Mississippi forms the entire boundary separating from the States of Missouri and Iowa. Within the limit, above described, we have a territory about 380 miles in extreme length; its breadth varies from a few miles at the south extremity, to about 200 miles near the latitude of Quincy, averaging perhaps 140 miles; the whole area is 55,000 square miles, about seven times as large as Massachusetts, more than one quarter as large as France, or about the same size as England and Wales.

A glance at the map will show that this State has three slopes, varying greatly in extent and in the size and importance of the rivers running from them. The first and smallest of these slopes is that of Lake Michigan. The slopes towards the great lakes are everywhere short, but never shorter than in this State, being scarcely more than ten miles in extreme width. The only rivers of any size flowing into the lake, are the Calumet, a small stream from Indiana, and the Chicago river, a stream of much importance to commerce, notwithstanding its short course. The slope next in size is that to the south-east, emptying its rivers into the Wabash and the Ohio; the principal streams here are the Vermillion, Embarrass, Little Wabash, and Saline Creek. The largest slope, occupying probably five-sixths of the State, is to the south west, sending the Kaskaskia, the Illinois, with its numerous tributaries, the Rock and Fevre rivers, with many streams of less importance, into the Mississippi. It will be seen that almost the entire slope of the State is to the south, amounting, it would seem, to about 320 feet, the Mississippi river being 290 feet above the gulf at Cairo, and 610 feet at Dunleith; Lake Michigan also being about 600 feet above sea level.

The surface of Illinois is rarely level, although there are no elevations approaching the height of mountains. Some of the portions most nearly level are in the eastern part, in the counties of Iroquois and Kankakee, where there is a large tract of swampy land, extending into Indiana. The highest lands of the State are the prairies of the northern central part, reaching in some places to a height of 900 feet above the level of the sea; it is possible a few points may be as high as 1000 feet.

The term "prairie" was applied by the French, to all those level or gently undulating tracts of country destitute of trees. They occupy much the largest part of this State, and usually present a regular succession of gentle swells and depressions. Their surface is covered with tall grass; and, in summer, is decked with an endless profusion of the most beautiful flowers. Although more "rolling" in some places than in others, the prairies of Illinois, on the whole, are more nearly level than in most of the other States. The river beds all seem to be cut out from the prairies by the action of the water; and are deeper and broader according to the size of the stream, the rapidity of the slope and the character of the surface. There is usually a great deal of broken land bordering the streams, and sometimes extending for some miles from the banks of the larger rivers, before reaching the prairie level. The descent from the prairies to the river beds—always called "the bluff"—is sometimes almost or quite vertical, but seldom a gentle slope, sometimes the beds of the small branches entering a river, break up the bluff into a succession of rugged hills. On the Mississippi, these bluffs are often from 200 to 400 feet high, sometimes close upon the bank of the stream, and sometimes receding several miles, leaving level and very rich "bottom" lands. The most remarkable of these—the Great American Bottom—extends along the Mississippi for about eighty miles north of the mouth of the Kaskaskia, and contains an area of nearly 300,000 acres. It has, perhaps, the richest soil to be found in the world, and was one of the earliest settled portions of the State, but is not healthy. The other large rivers are often bordered by bottoms of greater or less extent, but the bottoms are everywhere subject to overflow, as floods are very common in all the streams of the State. The current of the streams is ordinarily quite sluggish, in high water the floods back up the Illinois for seventy miles, but in many of

the more broken parts of the State, there is sufficient fall to furnish excellent mill-sites. All the streams, great and small, usually have their sources in the slight depressions of the prairies. These depressions, or sloughs—invariably pronounced “slews,”—are often totally impassable for carriages, in the muddy season.

Illinois has very few lakes. Except Peoria Lake, a mere widening of the Illinois river, and Pishtaga Lake, in the north-east part of the State, there are scarcely any permanent lakes worth mentioning. But, in the spring of the year, a multitude of ponds, of greater or less extent, dot the prairies in every direction. These are the resort of vast numbers of geese, ducks and other wild fowl.

The most broken portions of the State are in the south and the north-west. The counties south of a line running west from the mouth of the Wabash, are often extremely rough. For some miles north of Cairo, the soil is alluvial, and this whole region is frequently submerged by the floods of the Mississippi and the Ohio. A short distance north of this broken region is the Grand Prairie, extending across the State in a north-east direction from the north part of Jackson county into Iroquois. It is from one to twelve miles wide, generally quite level, and seems to be the summit between the Wabash and the Mississippi. The broken land along the streams has a much lighter and more gravelly soil than the prairies; but it is well adapted to the production of trees. Hence, tracts of woodland—called, in the language of the country, “timber” or “groves”—skirt every considerable stream. Small groves, occasionally, and scattered trees, are sometimes found on the prairies. Some of the most common kinds of trees are oaks of several varieties, black and white walnut, lime or basswood, hickory, maple of different species, including the sugar tree and white and yellow poplar and cypress, in the south part of the State. The most valuable wild fruits and nuts are crab apples and plums in abundance, grapes, papaws, persimmons, hickory, hazel and butter nuts, black walnuts, and in the south, pecan nuts. Blackberries and strawberries abound in many places. We are not aware that evergreen trees are produced naturally in any part of the State, and considerable care is requisite to succeed in cultivating them.

It would be difficult to find another tract of country of the same size, better supplied with the natural facilities for communication than Illinois. Besides Lake Michigan connecting with all the great lakes, the St. Lawrence and the ocean, and the three great bounding rivers, all navigable far beyond the State, the Illinois opens a communication through its centre, and at high water many of its tributaries can be navigated by steamboats and smaller craft. The largest Mississippi boats come up Fevre River to Galena; and several of the remaining streams furnish navigable waters, at favorable times, amounting in the aggregate to many hundred miles. Yet, with all these advantages, so great is the area of the State, that large regions of country were very difficult of access until the opening of the numerous railroads, stretching away in almost every direction, left very little to desire in this particular, except in the muddy seasons of the year. When the rich clayey soil is saturated with water, the thick adhesive mud becomes so deep, that the roads, in dry times as hard and smooth as though macadamized, become wholly impassable, except to the slow-moving, bespattered horseman. No characteristic of the country is more disgusting or discouraging to the new comer than this; but when the rain ceases, the troublesome mud disappears with astonishing rapidity, under the combined influence of the sun and the strong prairie winds.

Although Illinois has little romantic scenery, and few striking natural objects of curiosity to attract him who travels for amusement or recreation, yet she is not altogether destitute in this particular. Her broad, rich prairies stretching away for miles with their graceful undulations, like the ocean when its surface is disturbed only by the slow, steady swell of a calm day, their borders fringed with distant groves, marking the track of some water-course, and their tall rich grass feeding great herds of cattle, are always an object of deep interest, not only to the stranger, but even to one whose eyes have been accustomed to the scene from childhood. The rugged river bluffs often assume very picturesque shapes, although their height is not great. Perhaps the most remarkable is Fountain Bluff, on the Mississippi, in Jackson county. It is of an oval shape, about six miles in circuit, and 300 feet high, its top is full of sink holes. The cave in the rock on the Ohio, in Hardin county, is not only a natural curiosity, but has considerable historical interest, from having been the home of a formidable band of robbers, or river pirates, in 1797, and for having formed a retreat for similar outlaws, on more than one subsequent occasion. * “Starved Rock” is a perpendicular mass of limestone and sandstone, 150 feet above the surface of Illinois River. It is on the south bank of the river, eight miles below Ottawa, and derived its name from the fact that a band of Illinois Indians, who had taken refuge upon it from the Pottawatomies, were besieged here by their enemies until all perished of starvation or thirst. “Deer Park,” a remarkable gorge in the Sandstone Rock, through which a small creek flows to join the Vermillion, is in the same neighborhood.

There is considerable interest to the sportsman in this State. Besides the wild fowl previously mentioned, wild turkeys are found in great numbers in many of the groves; deer and wolves are still plenty in large portions of the State; and the prairie-fowl, a species of grouse found everywhere, are numbered by millions. The larger streams abound in fine fish, some of which grow to an astonishing size.

Illinois extends over $5\frac{1}{2}$ degs. of latitude, or from the latitude of Old Point Comfort, Va., to that of Salem, Mass. It is plain, therefore, that its climate must vary greatly between its northern and southern points. While the average annual temperature is probably about the same as in corresponding latitudes on the Atlantic coast, there is no doubt that the extremes are greater, and the changes frequently more sudden and more violent. This we should naturally expect from the *continental* position of the State. We think the following remarks, found in the Report of the Geological Survey of Iowa, and based upon accompanying figures, are eminently true of Illinois. “Early in the history of this country, it was generally maintained that the climate of the Mississippi Valley was considerably warmer than that of the Atlantic States in the same parallel. This theory has not been confirmed by the results of the observations which have been made at numerous stations, both in the Eastern and Western States. On comparison of the records, it appears that while there is little difference in the mean temperature for the year, between places in the same latitude in the Mississippi Valley and on the Atlantic border, yet there is a perceptible tendency to extremes in the mean of the seasons as we go further west. * * * The spring and summer are decidedly warmer, and the winter colder in the Mississippi Valley, than on the same parallel in New York. The open character of the prairie region, the want of shelter from the sun of summer, and the sweeping winds of winter, make these peculiarities of the western climate more perceptible than they would seem to be from an inspection of the thermometrical register. The prairie winds, however unpleasant to those exposed to them in the severity of winter, are of the greatest benefit to the general sanitary condition of the State, since they prevent the accumulation of the malaria which arises from the decomposition of the rich vegetation of the prairies, as is proved by the marked difference in the health of settlers on the prairie and in the timber.”

A breeze is always felt on the prairie, which often blows with considerable strength, and not unfrequently increases to a violent wind. This greatly mitigates the heat of summer, but renders traveling dangerous in winter, even when the thermometer is comparatively not very low. Probably about the same quantity of rain falls in a year as in the same latitude on the Atlantic coast, although droughts in summer are somewhat more common. They are, however, usually less disastrous, as the peculiar character of the prairie soil enables it “to stand drought,” astonishingly. Usually there is less snow here than in the East, and from this circumstance, the winter grains often suffer, as well as from the frequent thawing and freezing of the soil. The winters are generally shorter than on the coast, and the cold “snaps,” though very severe, are not so prolonged. Cattle often remain unsheltered all winter, especially in the middle and southern parts of the State; but in severe seasons, many die, and we have never been convinced that true economy, as well as a sense of justice to the poor brutes, does not demand that they should be well protected.

The phenomena of the weather in this State are somewhat peculiar, and generally not well understood. He who may have considered himself “weather-wise” at the East, if he comes to Illinois and attempts to “prognosticate,” will probably be frequently astonished and chagrined at the result; and, judging from the practice of the “old settlers,” he will be likely to make such an attempt less often, the longer he remains.

The climate is healthful; although, as in all new countries in this latitude, especially where the water is im-

* Since we began this article, we learn that a few small evergreens grow upon the side of “Starved Rock”

pregnated with lime, fever and ague, remittent fever, and other bilious diseases prevail. They are, however, often produced, or at least aggravated, by living in poor houses, in unhealthful situations, and using water from shallow or "slough" wells, instead of those sunk to a proper depth. Pulmonary diseases are not common, but are rapid in their course when they do occur. The diseases of children are, of course, much the same as everywhere else; yet, perhaps, rather more likely to terminate unfavorably than in some other States.

We think we hazard very little in saying that the agricultural capacities of Illinois are unsurpassed by any area of equal extent in the world. There is very little land which may not be immediately cultivated; and with proper attention to drainage, etc., the waste territory can be reduced to a very small figure. The prairie soil is a rich, black loam from one foot to three in depth. In many places, it has been cultivated for years, without the application of any fertilizer whatever; and, generally speaking, manures are accounted of no value on the prairies and bottoms, though many approve of their use on corn lands. Nowhere is the use of machinery in farming more favored by the surface and character of the soil. The soil of the timber lands is by no means barren, though less rich than the prairie; and by many it is esteemed better suited to the production of winter grains especially in the northern and central parts of the State.

And yet, with all its advantages, only one-seventh of the State was improved in 1850; and millions of acres, without a bush or a stone to obstruct, are still awaiting, in their virgin richness, the settlers' plow. Almost all the products of the temperate zone, are raised, to a greater or less extent; but the soil and climate seem best suited to corn, wheat, grass, and in the south, fruits. One of the most intelligent agriculturists in the State, writes us: "The north half of the State must be considered almost hopeless for winter wheat; the centre, doubtful; the south, good. Corn is, and must be, the great staple; grass does well in most parts; hemp will do well in all rich soils except perhaps in the extreme north; oats and spring wheat do better north than south; rye generally succeeds wherever it has been tried; sorghum syrup is easily made in all parts. I am growing more and more convinced that, with the exception of a limited portion of the South and some few favored spots, this will prove a far better State for corn, hay, hogs, cattle and horses, than for grain, or orchard products; and in these great staples it can and will, beat the world."

The *Chicago Press & Tribune*, of Jan. 2, 1860, in its annual review of the business of that city, says: "There is a growing disposition on the part of Western farmers to pay less attention to the small grain crop, to increase the area of Indian corn, meadow pastures and grasses, and to engage more largely in the business of growing stock, hogs and sheep. Not only is this fact evident from the increased amount of provisions packed at this and other western points, but it is also proved by the large yearly increasing quantities of live stock now sent forward from the corn-producing States of the West. Pork-packing in Chicago is yet comparatively in its infancy; nevertheless there are but two points in the United States at which the business is more extensively engaged in, and it is very evident that the time is not far distant when Chicago will lead both of these. In beef-packing, our city claims supremacy, and never before has she distanced her rival so greatly as the present year."

The following statements and statistics, gathered chiefly from the report above referred to, and from the reports of the Chicago Board of Trade for 1859 and 1860, may help to form some approximate idea of the principal productions of this State. It is true that much of the produce received at Chicago comes from points beyond the State, but it is also true that Illinois exports large quantities of produce that do not pass through Chicago.

The gross value of the produce exported from Chicago in 1859, exceeded \$24,000,000. The total amount of grain received at that city exceeded 20,000,000 bushels; and some firms are said to have shipped from 1,000,000 to 1,500,000 bushels. The amount of flour received at Chicago was 677,045 barrels in 1858, and 887,821 barrels in 1859. More was brought in over the Rock Island, the Galena and Chicago, and the Burlington railroads than by any other routes. Much more flour was shipped to Buffalo than to any other point. Of wheat, 9,947,476 bushels were received in 1858, and 8,060,766 bushels in 1859. Most came over the Galena, Burlington, and Central roads. 8,258,699 bushels of corn were received in 1858 and 5,401,870 in 1859. More corn came over the Illinois and Michigan Canal than by any other route; the greatest quantities by railroad came by the Burlington, the Rock Island, the Central and the Galena. The most prominent points to which corn and wheat were shipped were Buffalo and Oswego. The average prices for the past three years were as follows: winter wheat \$1.07, spring wheat 81c, corn 55c.

Great quantities of grass seed are sent to Chicago, as the following figures will show, viz: 4,271,732 lbs. in 1858, and 5,241,547 lbs. in 1859. The Burlington and Galena roads contributed more than any others, and Buffalo received more than any other port. Considerable quantities of hay, both timothy and prairie, are now pressed and shipped from Chicago; the price of the prairie in 1859 was from two-thirds to three-quarters the price of the timothy. In 1858, 119,534 head of cattle were sent to Chicago, and 111,694 in 1859. The Burlington road brought much the largest number. The former year more than 30,000 were shipped from the State, over the Great Western road. The hogs brought into Chicago in 1858, numbered 432,944, and in 1859, 271,209; more coming over the Burlington, St. Louis and Central roads than any other. The number of hides brought to Chicago, added to those taken from animals slaughtered there, amounted to 19,438,677 in 1858, and 18,614,246 in 1859. Their value either year, could not fall much short of \$2,000,000.

The *Chicago Daily Democrat*, of March 15, 1860, in comparing the business of the first eleven weeks of the present year with the corresponding weeks of 1859, reports more than four times as much corn, one-quarter more wheat and flour, and nearly twice as much grass seed, received the present year. The shipments compare in about the same ratio.

The raising of fruit is at present attracting much attention, especially in some of the southern counties, where the soil and climate are admirably fitted for producing all the fruits of the temperate zone. The best peaches brought into the Chicago market are said to be from "Madison county and Southern Illinois." Apples are raised almost anywhere in the State, and grow very large and fair. Peaches, and sometimes the other fruits, are often called forward by the "warm spells" of the winter and early spring, so much as to be cut off by frost. Pears are grown with some difficulty. Trees of all kinds, on the prairie, must be kept low to avoid the strong winds. The Iowa report, before mentioned, says: "The people of the West are hardly yet aware of the fact, that in the production of fruit, the broken lands along the streams will really yield a greater return for the labor expended on them than can be obtained from the best corn and wheat lands in the country." The culture of the grape for wine, is now receiving considerable attention. The soil and climate of our State are so peculiar that neither the varieties of fruit, nor the methods of culture in vogue in the Eastern States, seem suited to us; but we have many intelligent and earnest men now in the business, who will soon supply all deficiencies in both respects, as far as they can be supplied.

In an article of this kind, the minerals of Illinois demand a prominent place. The only minerals of much present importance, are coal, lead, salt and building stone. Many parts of the State are wholly destitute of stone, while in other places, it is abundant and of excellent quality. Most of it is limestone, of different kinds and qualities, some marble being found; but there is abundance of sandstone in many places. The freestone obtained from a quarry at Makanda, on the Central Railroad, forty-eight miles north of Cairo, is said to surpass the celebrated Connecticut and Portland stones. The quarries of Joliet supply a very large region of country, and those at Athens furnish a large amount of building material to Chicago. Salt is produced in Jackson, Gallatin and Saline counties. The salt springs are a source of revenue to the State government. Copper is found in the north and south, and zinc is said to be abundant in some localities, but we think no use is made of either. Iron ore of different kinds, is quite abundant in the south—especially noticed in Union and Pope counties—but we are not aware that it is at all sought after.

The lead of Illinois has long been known. It is found in many parts of the State—Pope and Union counties containing much of this metal—but what is known as the "lead region," belongs to this State in common with Wisconsin and Iowa, and extends as far south as Apple River. It is believed that the lead of the Upper Mississippi was discovered in 1700, by Le Sueur, who made a voyage up the river as far as the St. Peter's. Mining was pursued to some extent, near the site of the present city of Dubuque, from 1788 to 1810, by Julian Dubuque, [after

whom the city is named. About 1822, mining began on the east side of the river; and, at the time of the Winnebago war, in 1827, it is estimated that six or seven thousand people were in the mines. These people were mostly from Illinois and Missouri. Ford says, in his History of Illinois, "The Illinoisians ran up the Mississippi river in steamboats in the spring season, worked in the lead mines during warm weather, and then ran down the river again to their homes, in the fall season; thus establishing, as was supposed, a similitude between their migratory habits and those of the fishy tribe called 'suckers.' For which reason the Illinoisians were called 'Suckers'; a name which has stuck to them ever since." The lead mining in the neighborhood of Galena increased quite rapidly until 1847; about 50,000,000 lbs. being exported annually, from the vicinity. Upon the opening of the California gold mines, many of the miners left the pursuit of lead to dig for the more valuable metal; in consequence of which, the business so declined that in 1856 only about three-fifths as much lead was mined as in 1847. The price meanwhile had nearly doubled, and since 1856 the business has been rapidly increasing. The receipts of lead at Chicago, which increased about one hundred per cent. in each of the years of 1858 and 1859, may indicate to some extent, the increase of the mining business. Very little of the Galena lead leaves the western States. The imports of lead from foreign countries into the Eastern States, was 55,294,256 lbs., in 1856.

The coal region of Illinois, except a few of the extreme southern counties, and a strip of greater or less width along the Mississippi, extends over the whole State, as far north as a line running a little north of the Rock Island railroad, east to the neighborhood of Morris, Grundy county, and then south-east, striking the Indiana line just east of Middleport. In Rock Island and Mercer counties the coal region crosses the Mississippi into Iowa; and from Iroquois county to Gallatin it passes beyond the State into Indiana and Kentucky. A little coal has been found north of the limit above given, at Sterling, in Whitesides county. Dr. Norwood, State Geologist, in his report on the coal fields, says: "Workable beds of coal, however, do not underlie the whole area marked as 'coal measures.' Illinois is not one 'great coal field,' as has been represented in maps and geological reports made previous to the commencement of the State Geological Survey." Within the limits of the coal measures, the mineral is found in *basins* of greater or less extent, sometimes at considerable depths, and often so near the surface that it can be readily obtained by the operation of "stripping." Indeed the ravines often cut through the coal, leaving it exposed in large quantities. Prof. C. D. Wilber says: "We have, in general, three workable beds of coal within three hundred and fifty feet of the surface, making a total thickness of sixteen feet; so that in many localities one shaft serves for working three beds at a time. However, most of our coals are derived at present from the upper vein, which is, in all countries, of the least value, being more or less mixed with impurities; while the lower veins are more compact, free, and contain more carbon." For the reason here stated, the Illinois coals, which were at first thought of little value, when they were only taken from the upper vein, are constantly gaining in reputation as larger quantities are obtained from the lower veins.

The business of coal mining in this state is of recent date, although the existence of our coal beds has long been known. The map of Father Hennepin, published in 1679, indicates coal in the vicinity of Ottawa, which is the first notice we have of this mineral in America. The business is rapidly extending, and the use of coal is becoming more general every year; and yet much the largest portion of the supply for Chicago, is brought from Ohio and Pennsylvania. In that city the price of the coals from the above named States was fifty per cent. more in 1859 than the price of our Illinois coals, notwithstanding the statements from high authority, that careful analysis shows that our coals compare favorably with the bituminous coals of the Appalachian system. It is said that the western coals are richer in oil and gas than the eastern, while the latter contain a larger quantity of carbon in coke. May not this fact have much significance, now that the use of kerosene oil is so rapidly extending? We believe the manufacture of coal oil has already been commenced within our State.

The use of coal on locomotives is becoming much more general, many roads now using it almost exclusively. Cannel coal is found in Knox, Henry and LaSalle counties. Some of it so nearly resembles the celebrated "Breckenridge" coal of Kentucky, that "in hand specimens, no one could tell the difference."

Some of the points from which the largest quantities of coal are at present shipped, are, Danville, in Vermillion county; DuQuoin, on the Central Railroad; Kewanee, on the Burlington road; Peoria, and the vicinity of LaSalle. Large quantities are sent from mines near the north limit of the coal region, to the north part of the State and to Iowa and Wisconsin.

Illinois will never be pre-eminently a manufacturing State; but its manufactures are rapidly increasing. The manufacture of agricultural implements is an important branch.

The State now contains 2,825 miles of railroad, in good condition; but in 1850 it contained only 95 miles. The Illinois and Michigan Canal, connecting Chicago with LaSalle, on the Illinois river, is an important work, projected many years ago. Large quantities of freight, especially corn, coal and lumber, are shipped over it.

The population of Illinois was 851,470 in 1850. During the first seven years of the present decade, its increase by immigration, was most astonishing. How completely that tide has been checked by the "hard times" of the last few years, may be judged from the fact, that the three principal railroads from the East running into Chicago, brought only 17,373 more passengers to that city from the East in 1859, than they carried in the opposite direction; and five of the principal railroads running West from Chicago, carried only 5,049 more persons West than they brought back, during the same year.

But we have little to fear for a Commonwealth possessing such elements of material prosperity as ours, and inhabited by a people who, in twenty years, have raised her credit from the threatened repudiation of 1840 to its present standard, and are now rapidly pushing her forward to the front rank in the benevolent and educational movements of the day.

STATE OFFICERS ILLINOIS.

EXECUTIVE DEPARTMENT.

HON. JOHN WOOD, Lieutenant-Governor, acting Governor, Springfield.

O. M. HATCH, Secretary of State, Springfield.

JESSE K. DUBOIS, Auditor of Public Accounts, Springfield.

WILLIAM BUTLER, Treasurer, Springfield.

NEWTON BATEMAN, Superintendent of Public Instruction, Springfield.

BENJAMIN F. JOHNSON, Private Secretary of Governor, West Urbana.

Legislature.

SENATE.

JOHN WOOD, President, Quincy.
F. D. PRESTON, Secretary, Olney.
JOHN S. ROBERTS, Ent. & Enq. Clerk, New Hartford.
D. J. WAGGONER, Sergeant-at-Arms, Lewiston.
R. S. BARNHILL, Postmaster, Fairfield.

STATE INSTITUTIONS, ASYLUMS, HOSPITALS, PUBLIC BUILDINGS, etc. etc.

Illinois State Hospital for the Insane.

Jacksonville, Morgan Co. Founded 1847; went into operation, 1851.

Present capacity of accommodation..... 250
When completed..... 500

Patients are received only from the State of Illinois. No pay patients are received, and preference is given in admission to cases of recent date.

Trustees.—William Ross, President; Samuel Clubb, W. H. Brown, E. G. Miner, John T. Cassell, H. E. Dummer.

Secretary and Treasurer.—Alexander McDonald.
Resident Officers.—And. McFarland, M.D., Superintendent; A. P. Tenny, M.D., Ass't. Physician.

Officiating Chaplain.—Rev J. M. Sturtevant, D.D.

Illinois Institution for the Education of the Deaf and Dumb.

Chartered 1839. Jacksonville, Morgan Co.

This institution is one of the most flourishing in America, all Deaf Mutes residing in Illinois, over ten years of age, are received and furnished with board, tuition, washing, lights, fuel, books and medical attendance, free of charge. The present number of pupils now belonging to the institution is about 200. In point of size it is undoubtedly the third or fourth in the United States. Its conveniences and comforts are not surpassed by any.

President.—George T. Brown.

Secretary.—William Thomas.

Treasurer.—William H. Campbell.

Board of Trustees.—George T. Brown, Robert Boal, M.D., G. D. A. Parks, N. Niles, William Thomas, R. V. Dodge, Philip G. Gillet, *ex officio*.

Illinois Institution for the Education of the Blind.

Instituted 1849. Present building occupied Jan. 1854. Jacksonville, Morgan Co.

Trustees.—Matthew Stacy, President; Samuel D. Lockwood, John Magoun, D. Rockwell, William Butler.

Principal.—Joshua Rhoads, M.D.

Matron.—Mrs. Rosanna Rhoads.

Teachers.—John D. Strong, A.M., Literature; Herman Strachauer, Music.

Assistant in Shop.—James M. Dunlap.

Illinois State Penitentiary.

Samuel K. Casey, Warden, Joliet.
James Congdon, Deputy Warden, Joliet.
H. Williams, M.D., Surgeon, Alton.
John W. Davis, M.D., Physician, Joliet.
John R. Casey, M.D., Physician, Joliet.

STATE AGRICULTURAL SOCIETY AND SUBORDINATES:

State Agricultural Society.

President.—Lewis Ellsworth, Naperville, DuPage Co.

Vice-Presidents.—1st District: C. B. Denio, Galena, Jo Daviess Co. 2d District: Wm. H. Van Epps, Dixon, Lee Co. 3d District: John Girard, Georgetown, Vermilion Co. 4th District: A. Dunlap, Peoria, Peoria Co. 5th District: J. W. Singleton, Quincy, Adams Co. 6th District: S. Dunlap, Jacksonville, Morgan Co. 7th District: Wm. Kile, Paris, Edgar Co. 8th District: S. B. Chandler, Belleville, St. Clair Co. 9th District: Hawkins S. Osborn, Pinckneyville, Perry Co.

Recording Secretary.—John Cook, Springfield, Ill.

Corresponding Secretary.—John P. Reynolds, Springfield, Ill.

Treasurer.—J. W. Bunn, Springfield, Ill.

Ex-President.—J. N. Brown, Berlin, Sangamon Co.

Ex-President.—H. C. Johns, Decatur, Macon Co.

Ex-President.—C. W. Webster, Salem, Marion Co.

General Supt of Grounds.—J. P. Reynolds, Odin, Marion Co.

North-Western Agricultural Society.

On the 8th of November, 1859, a meeting of subscribers to the formation of the above Society, resulted in a systematic organization, under the General Incorporation Act of the State. The following Board of Directors and Officers were elected at this and subsequent meetings, in accordance with their Constitution and By Laws:

Directors.—Dr. John A. Kennicott, Hon. Wm. B. Egan, Judge Fuller, W. R. Loomis, Esq., Wm. L. Church, Esq., Isaac Cook, Esq., Edward I. Tinkham, Esq.

President.—John A. Kennicott, of the "Grove."

Secretary.—Frank W. Reilly.

Treasurer.—E. I. Tinkham.

MEDICAL SOCIETIES.

Illinois State Medical Society.

This Society will hold its next regular biennial meeting at Paris, in Edgar Co., Ill., on the second Tuesday in May, 1860.

President.—David Price, M.D., Jacksonville.

Vice-Presidents.—H. W. Davis, M.D., Paris; S. T. Trowbridge, Decatur.

Permanent Secretary.—N. S. Davis, M.D., Chicago.

Treasurer.—J. W. Freer, M.D., Chicago.

Chicago Medical Society.

This Society meets regularly on the first Tuesday evening of every month.

President.—D. D. Waite M.D.

Vice-President.—G. S. Wickersham, M.D.

Secretary and Treasurer.—N. S. Davis, M.D.

Illinois Natural History Society.

Established June 30th, 1858.

President.—J. B. Turner, Jacksonville.

Vice-Presidents.—J. H. McChesney, Springfield; Frederick Brendel, Peoria; B. M. Wiley, Anna; A. M. Gow, Dixon; Edmund Andrews, Chicago; M. L. Dunlap, Urbana; B. G. Roots, Tamaroa; S. B. Mead, Augusta; Wm. LeBaron, Geneva.

Secretary.—Richard H. Holder, Bloomington.

Treasurer.—E. R. Roe, Bloomington.

Superintendent.—C. D. Wilber, Bloomington.

Curator.—Cyrus Thomas, Murphysboro.

Executive Committee.—C. D. Wilber, Ira Moore, C. D. Bragdon, Geo. Vasey, Cyrus Thomas.

COMMISSIONERS:

1. *Botany*—Geo. Vasey, Ringwood; F. Scammon, Chicago; Frederick Brendel, Peoria; S. B. Mead, Augusta.

2. *Geology*—J. W. Foster, Chicago; C. D. Wilber, Bloomington; Oliver Everett, Dixon; Ira Moore, Bloomington; S. S. Condon, Jonesboro; James Shaw, Mt. Carroll.

3. *Palaeontology*—J. H. McChesney, Springfield; Edmund Andrews, Chicago; J. P. Reynolds, Salem.

4. *Mineralogy*—E. H. Beebe, Galena; J. M. Woodworth, Chicago; Wm. H. Snyder, Belleville; M. L. Dunlap, Urbana.

5. *Conchology*—H. A. Ulffers, Springfield; E. R. Roe, Bloomington; J. W. Powell, Wheaton; M. S. Bebb, Salem; Lucius Clark, Rockford.

6. *Entomology*—B. D. Walsh, Rock Island; Cyrus Thomas, Murphysboro; Wm. LeBaron, Geneva.

7. *Herpetology*—Robert Kennicott, West Northfield.

8. *Ichthyology*—Cyrus Thomas, Murphysboro; C. D. Wilber, Bloomington.

9. *Ornithology*—Richard H. Holder, Bloomington.

CONSTITUTION.

Art. 1. This Society shall be called the "Natural History Society of Illinois."

Art. 2. Its field of observation and research shall comprise Geology, Meteorology, Botany, Zoology, Comparative Anatomy and Animal and Vegetable Physiology.

Art. 3. The officers of this Society shall consist of a President, nine Vice-Presidents, Treasurer, Secretary, Superintendent, Curator and Executive Committee, to be elected annually.

Art. 4. It shall be the duty of the President to preside at all regular meetings of the Society. In his absence one of the Vice-Presidents shall preside.

Art. 5. The Treasurer shall receive all moneys of the Society, such as fees of membership, donations, etc. and disburse the same as directed upon the written order of the Executive Committee.

Art. 6. The Secretary shall keep a record of all proceedings of the Society; shall file all papers read before the Society, shall act as a Librarian and conduct the correspondence.

Art. 7. The Superintendent shall visit different portions of this and other States; make collections of specimens, attend to exchanges with various societies, establish a system of co-operation, and labor to incite a general interest in the study of Natural History.

Art. 8. All specimens shall be labeled, registered and deposited in the Museum of the State Normal University.

Art. 9. Any resident of the State of Illinois may become a member of this Society on the payment of five dollars, if elected by a majority of the members present at any regular meeting, provided, the names of candidates for membership shall in all cases be presented on the recommendation of two members of the Society.

Art. 10. Each regular member shall pay an annual assessment of two dollars, after the first year of his membership.

Art. 11. The Executive Committee shall consist of five members to be selected by the Society. This Committee shall take charge of, and act upon all matters referred to them by the Society.

Art. 12. The Curator shall receive and take charge of all collections and contributions of specimens belonging to the Society, and arrange them in such place as shall be provided by the Society.

Art. 13. All regular meetings of this Society shall be held in the city of Bloomington on the day preceding the Annual Examination at the Normal University.

Art. 14. This Constitution may be amended or changed by a two-thirds vote of the members present at any annual meeting of the Society.

The Illinois Natural History Society was organized in June, A.D. 1858, for the purpose of conducting a thorough scientific survey of our State, in order to afford new sources of valuable knowledge to our citizens.

The call for a Convention to organize the Society was responded to by men who have long been devoted to the Agricultural and Educational interests of Illinois, and who had often urged this enterprise as the only means of developing our resources in the various departments of Natural History.

It is the aim of the Society to carry on this work within our borders until it is completed, and to establish a museum of Natural History at the State Normal University, comprising every species of plants, birds, shells, fishes, insects, quadrupeds, minerals and fossils, found in Illinois, together with such collections from various parts of the world as will assist our youth in gaining a knowledge of the general studies of Nature.

Since the day of our organization, the work has been carried on in various parts of the State by local surveyors and collectors. Illinois has already a host of scientific men, who are competent to take charge of this great work, and it is our intention to employ our home talent and energy as far as they can be made available; thus, not only greatly reducing expenses, but encouraging our citizens, and inviting them to a new domain of mental industry, at once profitable and delightful.

Arrangements are also being made with persons connected with the Geological Surveys of Iowa, Missouri, Wisconsin and Michigan, enabling us soon to present a complete collection of the animals, plants, minerals and fossils of the Northwest.

Foreign Collections will be of great service in enabling us to classify, arrange and understand our own species; and with this in view we have received and are constantly receiving additions, not only from various parts of the United States, but also from Europe, West Indies, Sandwich Islands, Australia, etc.

CANALS.

Illinois and Michigan Central.

Board of Trustees.—William H. Swift, President, Boston.

Treasurer.—Henry Grinnell, New York.

State Trustee.—Charles H. Ray, Chicago.

List of officers and agents employed by the Board of Trustees of the Illinois and Michigan Canal, in service November 30, 1859, with their occupation and compensation:

William Gooding, Secretary of Board of Trustees, etc.	\$2,500 00
John B. Preston, General Superintendent	2,500 00
E. S. Prescott, Agent Canal Lands	1,000 00
Joel Manning, Auditor of Accounts, and Clerk in Land Office	1,000 00
Wm. A. Gooding, Clerk Secretary's Office	1,000 00
C. E. Boyer, Assistant Superintendent and Inspector	1,000 00
J. M. Leighton, Assistant Superintendent and Inspector	1,000 00
Alfred Guthrie, Steam Engineer, Hydraulic Works	821 25
J. H. Kinzie, Collector of Tolls, Chicago	*2,000 00
D. L. Hough, " " La Salle	*1,700 00
A. F. Dow, " " Ottawa	900 00
H. S. Mason, " " Lockport	900 00
M. Kehoe, Inspector Canal Boats, Chicago	600 00
W. T. Mason, " " La Salle	600 00

11 Lock Keepers at \$300 per annum each.

The Trustees are \$2,500 per annum each.

* Including allowances for Clerk hire and Office rent.

President.—Thomas S. Page.
Manager.—John J. Page.

Lead Mines.

(E. H. Beebe & Co.) Galena, Jo Daviess Co.

Madison County Coal Co.

Bethalto, Madison Co.

Madison County Coal Co.

Bethalto Mines, Bethalto, Madison Co
 Capital \$200,000.
President.—T. Souther.

Mining Co.

(Stoddard & Batchelor.) Momence, Kankakee Co.

Mining Co., Coal.

A. S. Curtis & Co. Oneida, Knox Co.

Mining Co.

(Wm. R. Horrick.) Northampton, Peoria Co.

Mining Co.

Noyesville, Cook Co.

Mining Co.

(J. W. Johnson.) Piasa, Macoupin Co.

Mining Co.

(Kissling & Co.) Piasa, Macoupin Co.

Mining Co.

Highland, Madison Co.

Mining Co.

(Ray & Crabell.) Victoria, Knox Co.

Mining Co.

Buck, Hamilton Co.

Mining Co.

(Farwell & Co.) Pleasant View, Schuyler Co.

Mining Co.

(Cosby & Cox.) Golconda, Pope Co.

Mining Co., Coal.

(J. R. Norman.) Harrishburgh, Saline Co.

Mining Co., Coal.

(E. R. Curtis.) Oakulla, Iroquois Co.

Mining Co., Coal.

(Bevens & Marshall.) Pleasantvale, Pike Co.

Mining Co.

(J. Batson, J. Clark & D. Graham.) Santa Anna, De Witt Co.

Mining Co.

(Bunbridge & Tenley.) Farmington, Fulton Co.

Mining Co.

(John Black.) Farmington, Fulton Co.

Mining Co.

(J. & R. Bell.) Abingdon, Knox Co.

Mining Co.

(Peter Kemerling & Co.) Burns, Henry Co.

Mining Co.

(George R. Clark & Co.) Avon, Fulton Co.

Mining Co.

(James Hadsall.) Burns, Henry Co.

Moline Water Power and Manufacturing Co.

Capital \$150,000.

President.—Peter R. Reed.

Secretary and Treasurer.—Samuel J. Goodwin.
 Moline, Rock Island Co.

Morseville Mining Co.

Plum River, Jo Daviess Co.

North-Western Illinois Coal Co.

Rock Island, Rock Island Co.

Proprietor.—F. R. Brunot.*Agent and Manager.*—Charles M. Osborn.**Northern Illinois Coal and Iron Co.**

Capital \$100,000.

President.—E. D. Taylor.*Superintendent.*—Edgar Loomis.**Peoria Starch Manufacturing Co.**

Chartered February 1857. Capital \$60,000.

President.—Henry Mansfield.*Secretary.*—Nathaniel S. Tucker.**Peru Coal Mining Co.**

Peru, LaSalle Co.

President.—E. Higgins.**Peshtigo Lumber Co.**

Chicago, Cook Co.

President.—Thomas H. Beebe.*Secretary and Treasurer.*—George T. Stearns.

Rose Hill and Evanston Gravel Road Co.

Chartered 1859. Office, Chicago, Illinois.

President.—Robert Edson

Secretary and Treasurer.—Andrew T. Sherman.

Length of Road, 4½ miles. Capital \$25,000.

Saline Coal and Iron Manufacturing Co.

Shawneetown, Gallatin Co.

Salina Coal and Manufacturing Co.

Salina Mines, Gallatin Co.

Incorporated 1851.

President.—F. C. Havermeyer, N. Y.

Secretary and Treasurer.—A. H. Green, N. Y.

Superintendent.—J. F. Holloway, Salina Mines.

Shawneetown Coal and Manufacturing Co.

Shawneetown, Gallatin Co.

Sheffield Coal Co.

Mineral, Bureau Co.

Sheffield Mining and Transportation Co.

(Cummings Cheney.) Sheffield, Bureau Co.

Union Dispatch Co.

Chicago, Cook Co.

Chartered 1859. Authorized capital \$1,000,000.

President.—Louis B. Kelley.

Secretary.—J. S. Mechling.

Directors.—Lisuo B. Kelley, Wm. B. Jarvis and J. S. Mechling.

POST OFFICE DIRECTORY FOR THE STATE OF ILLINOIS.

Compiled from the latest Official Record for 1860, and revised by JAMES BARRELL, Esq., of the Chicago Post Office.

Note.—County Seats are denoted by capital letters.

INDEX TO RAILWAY DEPARTMENT, STATE OF ILLINOIS, 1860.

- ALTON & JUNCTION BR.** of Terre Haute, A. & St. L. Railway, from Alton to Junction main line; length 3 miles; owned and managed by T. H., A. & St. L. R. R. *Table of distances* page 898.
- BELLEVILLE & ILLINOISTOWN**, from E. St. Louis to Belleville; length 14 miles; owned and managed by T. H., A. & St. Louis Co. *Table of distances* page 898.
- BELOIT & MADISON BRANCH** of G. & C. U. R. R. from Belvidere to Janesville, Wis.; length 40 miles; owned and managed by the Galena & C. U. R. R. *Table of distances* page 900.
- BUREAU VALLEY**; owned and managed by the Rock Island Road and forms a branch of this road from Bureau Junction to Peoria, a distance of 46 miles. *Table of distances* page 895.
- CAIRO & FULTON OF MISSOURI**, from Bird Point, Mo., to Fulton, Arkansas; length 78; in operation 26 miles. Office, Springfield, Ill. Officers, M. Brayman, Pres.; Geo. R. Teasdale, Sec'y and Treas.; S. Sexton, Vice Pres. and Supt. *Table of distances* page 893.
- CHICAGO, BURLINGTON & QUINCY**, from Chicago to Galesburg, East Burlington and Quincy; length of road and branches 310 miles. Office foot of S. Water St., Chicago. Officers, James S. Joy, Pres.; C. G. Hammond, Supt.; H. Hitchcock, Asst. Supt.; C. W. Mead, Asst. Supt. *Table of distances* page 891.
- CHICAGO & MILWAUKEE**, from Chicago to Milwaukee, Wis.; length 85 miles. Office W. Water St., Chicago. Officers, Mahlon D. Ogden, Pres. Ill. Div.; Harvey North, Pres. Wis. Div.; M. L. Sykes, jr., Vice Pres. and Supt. *Table of distances* page 892.
- CHICAGO & NORTH WESTERN**, from Chicago to Oshkosh, Wis.; length 193½ miles. Office S. Clark cor. Lake St., Chicago, Wm. B. Ogden, Pres.; G. L. Dunlap, Gen. Supt.; E. DeWitt Robinson, Gen. Ticket Agt. *Table of distances* page 892.
- CHICAGO & ROCK ISLAND**, from Chicago to Rock Island 182 miles and branch to Peoria 46 miles. Office Dickey's bldg., Dearborn St., Chicago. Officers, Henry Farnam, Pres. C. & R. I. R. R.; John A. Dix, Pres. Miss. & Mo. R. R.; John F. Tracy, Gen. Supt.; W. H. Whitman, Asst. Supt.; W. L. St. John, Genl. Ticket Agent. *Table of distances* page 893.
- DIXON AIR LINE**, from Aurora Junction to Fulton; length 106 miles; same officers and owned and managed by G. & C. U. R. R. *Table of distances* page 895.
- FOX RIVER VALLEY & WIS. CENTRAL**, from Elgin, Ill., to Geneva, Wis.; length 42 miles; managed by the G. & C. U. R. R. Officers, B. W. Raymond, Pres.; Gilman H. Merrill, Supt., Elgin. *Table of distances* page 895.
- GALENA & CHICAGO UNION**, from Chicago to Freeport; length 121 miles. Office No. Wells corner of Kinzie Sts., Chicago. Officers, W. L. Newberry, Pres.; Wm. H. Brown, Vice Pres.; Ed. B. Talcott, Gen. Supt.; Edward H. Williams, Asst. Supt.; H. H. Porter, Gen. Pass. Agt.; A. W. Adams, Gen. Freight Agt.; W. M. Larrabee, Sec'y; Henry Tucker, Treas.; Geo. M. Wheeler, Auditor; M. C. Gault, Master Transp.; Wm. S. Pope, Engineer. *Table of distances* page 895.
- GREAT WESTERN OF ILLS.**, from State line to Naples; length 175 miles. Office Springfield, Ills. Officers, L. Tilton, Pres.; B. Stockwell, jr., Supt.; C. A. Wilson, Gen. Ticket Agt. *Table of distances* page 892.
- ILLINOIS CENTRAL** (main line), from Dunleith to Cairo; length 455 miles. Office at the Great Central Depot foot S. Water St., Chicago. Officers, Wm. H. Osborne, Pres.; G. B. McClellan, Vice Pres.; W. R. Arthur, Gen. Supt.; J. C. Jacobs, Supt. North Div.; Robert Forsyth, Gen. Freight Agt.; W. P. Johnson, Gen. Pass. Agt. *Table of distances* page 900.
- ILLINOIS CENTRAL** (branch), from Chicago to Centrailla on the main line; length 252 miles. Office and Officers same as above. *Table of distances* page 897.
- KENOSHA, ROCKFORD & ROCK ISLAND**, from Kenosha, Wis., Genoa (by stage) to Harvard and thence by rail to Rockford; length 72 miles. Office Kenosha, Wis. Officers, A. B. Smith, Pres.; C. L. Prescott, Supt. *Table of distances* page 894.
- LOGANSPOUT, PEORIA & BURLINGTON**, (formerly Peoria & Quawka Eastern Extension,) from Peoria, Ills., to Logansport, Ind.; length 171 miles. Office Peoria, Ills. Officers, Chas. A. Secor, Pres., N. Y.; H. Nolte, Sec'y, Peoria; Samuel Gilman, Treas., N. Y.; Wm. H. Cruger, Supt., Peoria; Chas. E. Follett, Gen. Freight and Ticket Agt., Peoria; Wm. H. Backus, Gen. Western Agent, Burlington, Iowa; T. A. H. Smythe, Gen. Agt., Logansport, Ind.; Geo. R. Weed, Gen. Eastern Agt., Rutland, Vt. *Table of distances* page 893-897.
- MICHIGAN CENTRAL**, from Chicago to Detroit; length 284 miles; branch from Joliet, length 45 miles. Office Detroit, Michigan. Officers, J. W. Brooks, Pres.; R. N. Rice, Gen. Supt.; C. H. Hurd, Asst. Supt.; H. J. Spalding, Passenger Agent. *Table of distances* page 897.
- MICHIGAN SOUTHERN AND NORTHERN INDIA-NA**.—From Chicago to Toledo, main line length 244 miles. Detroit, Monroe and Adrian branch, length 64 miles; Jackson branch 8; Three River 45; Total, 484 miles. Office Toledo, Ohio. Officers—Geo. Bliss, Pres.; J. D. Campbell, Gen. Supt.; Wm. Wolcott, Sec. and Treas.; Charles Paine, Supt. West. Div.; Dudley P. Phelps, Gen. Ticket Agt. *Table of distances* page 894-896.
- MINERAL POINT**.—From Warren Ill., to Mineral Point, Wis., length 32 miles. Officers—L. Beecher, Pres.; Geo. W. Cobb, Supt. *Table of distances*, page 896.
- OHIO AND MISSISSIPPI**.—From Illinoistown, opp. St. Louis, to Cincinnati, length 340 miles. Offices, Cincinnati and St. Louis. Officers—H. Bacon, Pres. East Div.; S. L. M. Barlow, Pres. West. Div.; Wm. H. Clement, Gen. Supt.; T. Lough, Gen. Freight Agt.; Capt. Geo. W. Ford, Gen. Ticket Agt. *Table of distances*, page 896.
- PEORIA AND ROCK ISLAND**.—Napoleon B. Buford, Pres.; Chas. Buford, Benj. Harper, S. S. Guyer, Napoleon B. Buford, Holmes Hakes, Thos. J. Robinson, Wm. Bailey, Joseph Conway, Thos. J. Buford, and Wm. H. Wells, Directors. *Table of distances*, page 000.
- PITTSBURGH, FT. WAYNE AND CHICAGO**.—From Chicago to Pittsburgh, length 467 miles. Office, Pittsburgh. Officers—J. Edgar Thompson, Pres.; Wm. B. Ogden, Receiver; Geo. W. Cass, Acting Pres. and Gen. Supt.; Joseph H. Moore, Supt. East Div.; J. N. DuBarry, Supt. West. Div.; J. J. Houston, Gen. Freight and Pass. Agt.; A. Bradley, Sec.; J. P. Henderson, Treas.; T. D. Messler, Auditor. This new and direct route is now open to New York, Boston, Pittsburgh, Philadelphia, Baltimore and Washington City, Cleveland, Dunkirk, Buffalo, Niagara Falls and all Eastern cities; Cincinnati, Columbus, Dayton, Springfield, Urbana, Zanesville, Steubenville, Newark and Wheeling and all the interior towns of Ohio, Pennsylvania, Virginia, Maryland and N. Jersey, making one grand unbroken railroad line between Chicago and the East. Persons going East will find this route by far the more desirable, both from the advantages in point of distance, variety and beauty of the country through which the roads pass, as well as the less frequent changes of cars, and the annoyance of re-checking baggage required by other routes. Facilities for the transportation of freight and live stock by this route, are unsurpassed. Office, corner Randolph and Dearborn Sts., Chicago. *Table of distances*, page 897.
- QUINCY AND TOLEDO**.—From Camp Point to Meredosia, length 34 miles. Office at Quincy. Officers—J. W. Singleton, Pres.; A. W. Blakesley, Supt.; I. O. Woodruff, Treas.; P. C. Keller, Sec. *Table of distances*, page 893.
- RACINE AND MISSISSIPPI**.—From Racine, Wis., to Freeport, Ill., length 104 miles. Office, Racine, Wis. Officers—G. A. Thomson, Gen. Manager; Robt. Harris, Supt.; A. J. Redburn, Sec. and Gen. Ticket Agt.; W. M. Perine, Gen. Freight Agt. *Table of distance* page 895.

SOUTHERN ILLINOIS.—(Projected.) From Vincennes, Inda., to Mt. Carmel, Ill.
ST. LOUIS, ALTON AND CHICAGO.—From Chicago to Alton and St. Louis, length 256 to Alton, 281 to St. Louis. Office, Dickey's Building, 42 S. Dearborn St., Chicago. Officers—James Robb and Charles Congdon, Receivers; R. B. Mason, Chief Eng. and Gen. Supt.; Joseph Price, Treas.; N. H. Moore, Gen. Freight Agt. *Table of distances, page 895.*
TERRE HAUTE, ALTON AND ST. LOUIS.—From E. St Louis to Terre Haute, Inda., and branch to Alton, length 189 miles. Office, Terre Haute, Ind. Officers—Wm. D. Griswold, Pres. and Gen. Supt.; Henry C. Moore, Supt. West. Div.; Jno. W. Conlogue, Supt. East. Div.; R. Tonsey, Sec. and Treas.; H. G. Sanderson, Gen Ticket Agt. *Table of distances, page 898.*

Railroads forming the Principal Lines East, Etc,

NEW YORK AND ERIE.—From Dunkirk to New York, length 459 miles. Office, New York city and 54 S. Dearborn St., Chicago. Officers—Nathaniel Marsh, Receiver; Chas. Minot, Gen. Supt.; B. W. Blanchard, Gen. Freight Agt.; C. B. Greenough, Gen. Tick. Agt.; Dan. W. Boss, Gen. West. Agt. *Table of distances, page 898.*
CLEVELAND AND PITTSBURGH.—From Cleveland to Pittsburgh, length 150 miles, Tuscarawas branch, length 32½ miles, and River branch 43½ miles. Office, Cleveland, Ohio. Officers—J. N. McCullough, Pres. and Supt.; C. E. Gorham, Asst. Supt.; E. Rockwell, Sec.; R. F. Smith, Paymaster; F. R. Myers, Gen. Ticket Agt.; W. W. Chandler, Gen. Freight Agt.; W. C. Cleland, Gen. Agt. *Table of distances, page 899.*
PENNSYLVANIA CENTRAL.—From Pittsburgh to Philadelphia, length 353 miles. Office, Philadelphia. Officers—J. Edgar Thompson, Pres.; Wm. B. Foster, Vice-Pres.; H. J. Lombaert, Comptroller and Auditor; Thomas A. Scott, Gen. Supt.; George C. Francisus, Supt. Philadelphia Div.; A. L. Roumfort, Supt. East. Div.; T. P. Sargent, Supt. Middle Div.; J. D. Potts, Supt. West. Div.; Lewis L. Houpt, Gen. Tick. Agt.; W. H. Holmes, Gen. West. Agt., Indianapolis; R. W. Roberts, Agt., Chicago. The distance to New York via Pennsylvania Central is 50 miles less than

by any other route, from all Lake ports or Towns in Northern Illinois, Indiana and Ohio, and 100 miles less from all places on the Ohio or Lower Mississippi rivers, and Southern and Middle portions of Ohio, Indiana and Illinois. By this Road merchants have the benefit of all markets, viz : Pittsburgh, Philadelphia, Baltimore, New York and Boston, an advantage not possessed by any other route. Pleasure travelers have over this route unequalled attractions in the sublime scenery of the Alleghanies, with its Summit Tunnel nearly a mile long, and the picturesque views along the Juniatta. It passes near old Fort Du Quesne, the scene of the Paoli Massacre, and through Braddock's Field, and other places, all made memorable by the events of the Revolution. *Table of distances, page 899.*

GREAT WESTERN RAILWAY OF CANADA.—From Detroit, Mich., to Suspension Bridge, Ca., length 229 miles. Office, Montreal. Officers—C. J. Brydges, Managing Director; T. Reynolds, Financial Director; W. C. Stephens, Sec.; C. L. Reid, Engineer; S. Sharp, Supt. Car Dept.; R. Eaton, Supt. Loco. Dept.; E. S. G. Colpoys, Asst. Supt. East. Div.; J. Peacock, Asst. Supt. West. Div.; T. Bell, Gen. Freight Agt.; H. Shackell, Auditor; J. Movius, Gen. Agt. for W. State, Buffalo, N. Y. *Table of distances, page 894.*

BALTIMORE AND OHIO RAIL ROAD CO.—From Baltimore to Wheeling, Va., and branch from Baltimore to Washington, length of road and branch miles. Office, Baltimore. Officers—Jno. W. Garrett, Pres.; W. P. Smith, Master Transportation; I. I. Atkinson, Treas.; L. M. Coles, Gen. Freight Agt.; Jno. King, Auditor; T. Perkins, Master of Machinery; E. F. Fuller, Gen. West. Agt. *Table of distances, page 892-900.*

MILWAUKEE AND MINNESOTA RAILWAY, (formerly La Crosse and Milwaukee R. R.)—From Milwaukee, Wis., to La Crosse, length of road 200 miles. Office, Milwaukee. Officers—S. Chamberlain, Mortgagee in Possession; Edwin H. Goodrich, Manager; R. D. Jennings, Gen. Freight Agt.; J. M. Kimball, Gen. Ticket Agt. *Table of distances, page 893.*

NEW YORK CENTRAL R. R.—From Albany to Buffalo, length 298 miles, branch from Syracuse to Rochester, length 103 miles; Rochester and Niagara Falls Division, length 76 miles. Office, Albany. Officers—Erastus Corning, Pres.; Chauncey Vibbard, Gen. Supt.; J. Collamore, Asst. Supt., Buffalo. *Table of distances, page 894-895-896.*

LOGANSPORT, PEORIA & BURLINGTON RAILWAY.

1860.

1860.

Formerly Peoria & Oquawka (Eastern Extension) R. R.
BETWEEN
PEORIA, ILL., AND LOGANSPORT, IND., 171 1-2 MILES.

This Road is now completed and running regularly between the above points, forming, with its connections, the shortest Line, either constructed or projected, between the Mississippi River and the Atlantic Seaboard.

CONNECTIONS ARE AS FOLLOWS:

At PEORIA, with the Peoria, Oquawka & Burlington R. R.
At EL PASO, with the Illinois Central (Main Line) Railroad.
At CHENOA, with the St. Louis, Alton & Chicago Railroad.
At GILMAN, with the Illinois Central (Branch) Railroad.
At REYNOLDS, with Louisville, N. Albany & Chicago R. R.
At LOGANSPORT, { with the Toledo & Wabash Railroad,
 { with the Chicago & Cincinnati R. R.

EXPRESS PASSENGER AND FREIGHT TRAINS

Will be run over this Line of Road, with no change of cars between Burlington, Iowa, and Toledo and Cincinnati. Its short distance, in comparison with competing Lines, ensures regular connections, allowing quick time without excessive or dangerous speed.

Rates for Passengers & Freight always as low as by any other Route
SLEEPING CARS ON ALL NIGHT TRAINS.

Merchants and Forwarders will note the advantage of having their goods transported between Toledo or Cincinnati and Burlington, without changing cars or breaking bulk.

Apply to all regular Agents at Boston, New York, Philadelphia, Baltimore, Cincinnati, Chicago, or other prominent points, for rates or further information.

1860.

RAIL ROAD.

This Road from its geographical position—connecting at CHICAGO with all Roads in the west;

AT TOLEDO—with the several Roads in the Lake Shore Line for *Clyde, Monroeville, Cleveland, Erie, Dunkirk* and *Buffalo, Albany, N. York, Boston* and all points interior in Ohio, Pennsylvania, New York and the New England States.

AT DETROIT—with Grand Trunk and Great Western Rail Ways—is the most desirable avenue for either Passenger or Freight transfer between the East and the West:

AT TOLEDO—it connects also with the Toledo, Wabash and Western R. R., and with the *Dayton & Michigan R. R.*, which latter with the Cincinnati Ham. and Dayton Road, forms the shortest line between Cincinnati and Lake Erie; and through those roads, by its *Detroit, Monroe* and *Toledo* line, opening the most direct route between Detroit, Cincinnati, Louisville, Indianapolis and other points in the South.

AT CLEVELAND—with *Cleveland & Pittsburgh* trains, for Pittsburgh, Wheeling, Harrisburgh, Philadelphia, Baltimore and Washington.

THE FREIGHT ARRANGEMENTS

Of the Road are such, that for the transportation of *Stock* or *other property*, its advantages are not excelled by any, for lowness of Rates, or for promptness, regularity and care, in despatch and delivery.

IN THE PASSENGER DEPARTMENT,

It is unrivalled in all its appointments.

DAY EXPRESS TRAINS are furnished with Salisbury's Petticoat Dusters, by which the greatest nuisance of summer travelling—*Dust!* is entirely avoided.

NIGHT TRAINS are provided with the most approved *Sleeping Cars*—securing to the traveller, the luxury of a comfortable bed when night overtakes him, without delay in his journey.

In short, the Public can rely upon finding in use upon this road all the modern Rail Road Improvements, with a track, Motive Power and Rolling Stock, equal to any in the country.

MAIN LINE—Chicago to Toledo.

AIR LINE—Elkhart (intersecting Main Line), to Toledo.

DETROIT, MONROE & TOLEDO LINE—Toledo to Detroit.

MONROE BRANCH—Adrian (intersecting Main Line to Monroe, (intersecting D. M. & T. Line,) to Detroit.

JACKSON BRANCH—Adrian to Jackson.

THREE RIVERS BRANCH—White Pigeon (intersecting Main Line,) to Three Rivers.

THE PENNSYLVANIA CENTRAL R. R.

1860.

1860.

THE CAPACITY OF THIS ROAD IS NOW EQUAL TO ANY IN THE COUNTRY.

— THREE THROUGH —

PASSENGER TRAINS

BETWEEN PITTSBURGH AND PHILADELPHIA,

Connecting direct in the Union Depot, at Pittsburgh, with Through Trains from all Western Cities, for Philadelphia, New York, Boston, Baltimore and Washington City; thus furnishing facilities for the transportation of Passengers unsurpassed, for speed and comfort, by any other route.

Express and Fast Lines run through to Philadelphia without change of Cars or Conductors.

Smoking Cars are attached to each train; Woodruff's Sleeping Cars to Express and Fast Trains. **The Express runs Daily**, Mail and Fast Line Sundays excepted. Three Daily Trains connect direct for New York. Express and Fast Line connect for Baltimore and Washington.

MORNING TRAINS

Connect at Pittsburgh with the 2.00 A. M. Express, arrive in Philadelphia or Baltimore at 5.00 P. M., and in New York at 10.30 P. M.

EVENING TRAINS

Connect at Pittsburgh with 5.00 P. M. Fast Line, arrive in Philadelphia or Baltimore at 8.00 A. M., and in New York at 2.30 P. M.

Mail Train leaves Pittsburgh 6.00 A. M., arriving at Philadelphia 11.00 P. M., and New York 4.30 A. M.

Six Daily Trains between Philadelphia and New York; Two Daily Trains between New York and Boston. Through Tickets (all Rail) are good on either of the above Trains.

Boat Tickets to Boston are good via Norwich, Fall River or Stonington Lines.

TICKETS EASTWARD

May be obtained at any of the important Railroad Offices in the West; also, on board any of the regular Line of Steamers on the Mississippi or Ohio Rivers; and **TICKETS WESTWARD**, at the Offices of the Company in Boston, New York, Baltimore or Philadelphia.

 **FARE ALWAYS AS LOW AS BY ANY OTHER ROUTE.**
ASK FOR TICKETS BY PITTSBURGH.

The completion of the Western connections of the Pennsylvania Railroad to Chicago, makes this

DIRECT LINE BETWEEN THE EAST AND THE GREAT NORTHWEST.

The connecting of Tracks by the Railroad Bridge at Pittsburgh, avoiding all drayage or ferriage of Freight, together with the saving of time, are advantages readily appreciated by Shippers of Freight, and the Travelling Public.

PARTIES SHIPPING EASTWARD will find it to their advantage to Ship by this Route. For Freight Contracts or Shipping Directions, apply to or address either of the following Agents of the Company:

D. A. Stewart, Pittsburgh; Doyle & Co., Steubenville, O.; H. S. Pierce & Co., Zanesville, O.; J. J. Johnston, Ripley, O.; R. McNeely, Maysville, Kentucky; Ormsby & Cropper, Portsmouth, O.; Paddock & Co., Jeffersonville, Ind.; H. W. Brown & Co., Cincinnati, O.; Athern & Hibbert, Cincinnati, O.; R. C. Meldrum, Madison, Ind.; Wm. Bingham, Louisville, Ky.; P. G. O'Riley & Co., Evansville, Ind.; N. W. Graham & Co., Cairo, Ill.; R. F. Sass, St. Louis, Mo.; John H. Harris, Nashville, Tenn.; Harris & Hunt, Memphis, Tenn.; Clarke & Co., Chicago, Ill.; W. H. H. Koontz, Alton, Ill.; Murphy & Walle, Dubuque, Iowa; or to Freight Agents of Rail Roads at different points in the West.

The Greatest Facilities offered for the Protection and Speedy Transportation of LIVE STOCK,

And Good Accommodations with usual privileges for persons travelling in charge thereof.

FREIGHTS WESTWARD.

By this Route Freights of all descriptions can be forwarded from Philadelphia, New York, Boston or Baltimore, to any point on the Rail Roads of Ohio, Kentucky, Indiana, Illinois, Wisconsin, Iowa or Missouri, *by Rail Road direct.*

The Pennsylvania Rail Road also connects at Pittsburgh with Steamers, by which Goods can be forwarded to any port on the Ohio, Muskingum, Kentucky, Tennessee, Cumberland, Illinois, Mississippi, Wisconsin, Missouri, Kansas, Arkansas, and Red Rivers; and at Cleveland, Sandusky and Chicago with Steamers to all Ports on the North-Western Lakes.

Merchants and Shippers entrusting the transportation of their Freight to this Company, can rely with confidence on its speedy transit.

THE RATES OF FREIGHT to any point in the West by the Pennsylvania Rail Road *are at all times as favorable as are charged by other R. R. Companies.*

 Be particular to mark packages "VIA PENNSYLVANIA RAIL ROAD."

Merchants in the West ordering Goods from the East, will do well to direct them to be shipped by this Route.

Parties attending to their own Shipments from the East, will find it to their interest to call on the Agents of this Company at the following places before shipping; or letters addressed to either of them on the subject of freights, will meet with prompt attention.

E. J. SNEEDER, Philadelphia.

Belleville and Illinoistown Railway.

Trains leave Belleville for East St. Louis, and returning leave St. Louis for Belleville twice a day. Distance 14 miles. Fare 50 cents.

Horse Railroads.

CHICAGO CITY RAILWAY CO.—Chartered February 14th, 1859. Office, Garrett Block, Chicago, Cook Co. Officers—B. F. Carver, Pres.; Henry Fuller, Supt.; George W. Fuller, Sec. and Treas.

THE PRINCIPAL CITIES AND TOWNS IN THE STATE OF ILLINOIS,

TOGETHER WITH PRINCIPAL CITIES IN THE UNITED STATES.

Indexed in connection with Railways, in Illinois and Roads connecting with the same, forming main lines East, West, North and South.

NOTE.—Reader, you will observe that the number affixed opposite to each City or Town in this Table, denotes the page on which you will find the Table of Distances, and Stations of the Road (on or in connection with which) you can reach any given place most expeditiously.

An asterisk * denotes a Telegraph Station.

CAPITAL LETTERS denote CITIES and TOWNS in other States.

Illinois College.

Jacksonville, Morgan Co.

Founded 1830.

(See *adv.* page 907.)

President.—Julian M. Sturtevant, D. D.

ILLINOIS COLLEGE.

ILLINOIS COLLEGE, the oldest college in the State, is located in Jacksonville, Morgan Co. It graduated its first class in 1835. Christian, without being sectarian; conservative, without being bigoted; progressive, without being radical, and aiming at no ephemeral popularity, it has been, from the beginning, a power in the State. It was never more prosperous than now. Its regular course of study is substantially that of Yale and Harvard. It has, in addition, a Scientific Course, embracing French and German, and all the studies of the regular course, except Latin and Greek. It has also a flourishing Preparatory Department.

Tuition in the Collegiate department is \$30 per year; in the Preparatory, \$20.

FACULTY.

REV. JULIEN M. STURTEVANT, D. D., PRESIDENT, Professor of Moral Philosophy.

SAMUEL ADAMS, A. M., M. D., Professor of Chemistry and Natural Philosophy.

REV. WILLIAM D. SANDERS, A. M., Professor of Rhetoric and Elocution.

REV. RUFUS NUTTING, JR., A. M., Professor of Latin and Greek Languages.

RUFUS C. CRAMPTON, A. M., Professor of Mathematics and Astronomy.

[For information address any member of the Faculty.]

NEWSPAPERS.

EARLY NEWSPAPERS IN ILLINOIS. EXTRACT FROM THE PROCEEDINGS OF THE CHICAGO HISTORICAL SOCIETY.

At the Society's request, a paper prepared by him on the "Early Newspapers of Illinois," was then read by W. H. Brown, Esq., the President, who also submitted valuable papers upon the subject, obtained at his instance, from Messrs. George Churchill and Robert Blackwell—with Hooper Warren, the oldest living printers, probably, in Illinois.

The first paper established in the State was the Illinois Herald, begun at Kaskaskia, at or before 1814, by Matthew Duncan, brother of the late Governor Duncan, of Kentucky, where his press had previously done much service. It passed soon after under the name of the Illinois Intelligencer, into the hands of Elijah C. Barry, who removed his press and paper to Vandalia in 1820, where it was conducted later by Messrs. Brown & Barry.

The Illinois Gazette, the second paper, was commenced at Shawneetown, about 1818, and was under the charge of Messrs. James Hale and Henry Eddy.

The Edwardsville Spectator was founded in May, 1819, by Hooper Warren, who, in 1835, transferred his interest to Messrs. Lippincott & Abbott.

The Star in the West was started at the same place, by Messrs. Miller & Stone, September, 1822, who sold to Thomas J. McGuire & Co., in April, 1823, by whom the name was changed to the Illinois Republican. The late Judge Smith and Emanuel J. West were the leading editors of the latter, which advocated the call for a State Convention to legalize slavery, to which the Spectator was opposed. A paper called the Illinois Corrector was also commenced at Edwardsville, by R. K. Fleming, in 1823, who had previously printed at Kaskaskia the Republican Advocate, begun in January, 1823.

The Kaskaskia Republican was commenced in the same year at the same place.

The above include, it is believed, all the newspapers established in the Territory or State to 1830.

The following has been carefully revised from the files of Messrs. Charles H. Scriven and S. P. Rounds, Advertising Agents, Chicago, and is believed to embrace all of the newspapers in the State up to the time of going to press.

I. O. O. F.

The Grand Lodge of the State of Illinois of the Independent Order of Odd Fellows was organized August 22d, 1838, by the founder of the Order in America, Past Grand Sire Thomas Wildey. Its location was at Alton. It now has under its jurisdiction 265 working Lodges, with a membership in July last of 10,299 members. The number entitled to membership in the Grand Lodge was 2,048, and the total revenue of the Order in this State for the year ending July 1st, 1859, was \$57,605.11. The amount paid in relief for the same year was \$13,420.16. The Grand Lodge was incorporated by the Legislature by an act bearing date February 8th, 1849.

The Grand Lodge holds its Annual Session at Springfield, on the second Tuesday of October. The Grand Secretary's office is at Bloomington. The Grand Officers, till October, 1860, are as follows:

B. J. F. Hanna	M. W. Grand Master	Alton.
John P. Foss	R. W. Deputy Grand Master	Chicago.
A. H. Marshalk	R. W. Grand Warden	Jonesboro.
Samuel Willard	R. W. Grand Secretary	Bloomington.
James Jackson	R. W. Grand Treasurer	Jacksonville.
W. Duff Green, P. G. M.	R. W. Grand Representative	Mt. Vernon.
H. W. Griswold, P. G. M.	R. W. Grand Representative	Freeport.
T. S. Bartholomew	Rt. Rev. Grand Chaplain	Belvidere.
Joel W. Smull	W. Grand Marshal	DeKalb.
Eugene M. Wisewell	W. Grand Conductor	Concord.
Barclay C. Gillam	W. Grand Guardian	Rushville.
Alexander G. Anderson	W. Grand Herald	Quincy.

I. O. O. F.

LIST OF LODGES OF THE I. O. O. F. OF ILLINOIS, WITH THEIR LOCATION AND TIME OF MEETING

Defunct Lodges are included in the list, and marked *; Lodges marked † are not working, though not yet declared defunct. The defunct and non-working Lodges are Nos. 1, 7, 8, 26, 27, 32, 56, 60, 62, 67, 94, 130, 150, 168, 169, 175 and 185.

Lodges whose names are in small capitals (Nos. 58, 113, 166, 200, 219, 221 and 239,) work in the German language.

Names of Post Offices in italics (Nos. 8, 146, 150 and 151) indicate that the name of the place where the Lodge is held is different from that of the Post Office.

Chicago Board of Underwriters.

President.—C. N. Holden.
Vice President and Surveyor.—T. L. Miller.
Treasurer.—H. B. Willmarth.
Secretary.—Arthur C. Ducat.

Chicago Board of Trade.

The following is a list of the officers from April, 1860, to April, 1861:

President.—I. Y. Munn.
1st Vice President.—Eli Bates.
2nd Vice President.—Jno. V. Farwell.
Secretary.—Seth Catlin.
Treasurer.—Geo. Watson.
Directors.—J. W. Finley, Geo. Webster, E. G. Wolcott, Clinton Briggs, A. E. Kent, C. H. Curtis, B. P. Hutchinson, Charles S. Dole, D. L. Quirk and Julian Magill.
Committee of Arbitration for first six months.—John Brodie, C. A. Rogers, S. T. Atwater, Windsor Leland and Howard Priestly.
Committee of Arbitration for second six months.—Tracy J. Bronson, C. J. Davis, John Maitland, Samuel M. Johnson and W. H. Low.
Committee of Appeals.—P. Anderson, M. C. Stearns, Hiram Wheeler, G. S. Hubbard, Charles H. Walker, H. McLennan, Thomas Harless, L. P. Hilliard and J. C. Walter.

Chicago Audubon Club.

ORGANIZED MARCH 3, 1858.

NAMES OF OFFICERS.

President—Wm. S. Johnson, jr.
Vice Pres.—C. L. Wilson.
Sec'y—H. S. Monroe.
Treas.—Geo. T. Abbey.
Directors—I. M. Roundtree, John Ross, John Bond, Isaac Shelby and Geo. T. Abbey.

Weights and Measures.

The following table of the number of pounds to the bushel, may be of interest to farmers and dealers:

Wheat.....	60 pounds	Timothy Seed...	45 pounds
Corn, shelled....	56 "	Flax Seed	58 "
Corn in cob.....	70 "	Hemp Seed.....	54 "
Rye.....	56 "	Buckwheat.....	52 "
Oats	32 "	Blue Grass Seed.	14 "
Barley.....	48 "	Castor Beans....	46 "
Potatoes.....	60 "	Dried Peaches...	33 "
Beans	60 "	Dried Apples....	24 "
Bran	20 "	Onions	67 "
Clover Seed	60 "	Whiskey to gal..	9 "

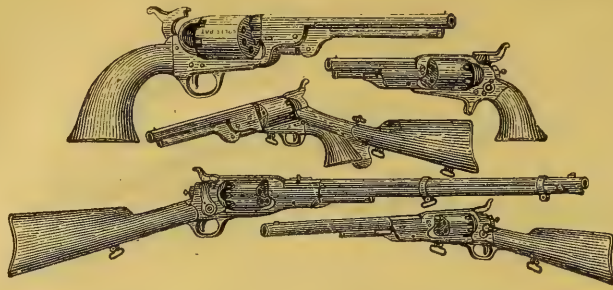

1860.

TERMS. Cash in New York Funds.

SAM'L. COLT, President.

THE PIONEERS OF CIVILIZATION. COLT'S REPEATING ARMS.

PISTOLS, RIFLES, CARBINES AND SHOT GUNS.

Simple Reasons for preferring Colt's Arm to all others.

1. They have been thoroughly tested by all classes of men in every country, and from the first rifle fired in Florida, during the Indian war in 1837, to the present hour they have always responded to the touch of their owners in the time of danger.
 2. They have a force and accuracy which have no parallels in the history of fire-arms.
 3. They do not endanger your eyesight and brain, as do the arms with patent primers, which fly like shells into many pieces.
 4. They do not stick fast, refusing either to open or shut without the aid of an axe when heated, as do the guns which open like molasses gates or nut cracks.
 5. They leave no burning paper in the barrel after a discharge, to blow the next cartridge into your face, as do the guns which open from behind.
 6. They are simple in construction, and easily taken care of, as any ranger or cavalry soldier will tell you. Treat them well, and they will treat your enemies badly.
 7. They are made of the best steel that can be procured for money, and have the strength to resist the explosive force of gunpowder, while the mongrel imitations and cheap arms are clumsily made of cast iron or inferior materials, and are more dangerous to their owners than they are to all others.
 8. They are well finished, and as cheap as a good arm can be made by the aid of modern machinery and skillful labor.
 9. They are always worth what they cost—in the Far West much more, almost a legal tender! If you buy anything cheaper, your life, or that of your companion, may balance the difference in cost.
 10. If you buy a Colt's Rifle or Pistol, you feel certain that you have one true friend, with six hearts in his body, and who can always be relied on.
 11. They can be carried loaded and capped, with entire safety. In rain, or when wading or swimming rivers, they remain water-proof.
 12. They have no knife edge to cut off the end of the cartridge and the powder, cutting off more and more at every discharge, as the barrel gets heated, and finally getting so dull that they will not cut at all. What old lady will lend her scissors to cut paper with? Ask any ranger who has tried the cutting slide guns, what he thinks of them.
 13. Colt's arms have been adopted for the service of the United States by the army board at West Point, in 1858, and for many years previously, as superior to all others. See the printed reports, which fill volumes.
 14. Colt's weapons are old friends to many thousands who will read this sheet. See Colt's new rifles before you buy any other, and then decide which will afford surest protection to your family, your life and your property.
- Sold by all respectable dealers throughout the world.

CINCINNATI DEPARTMENT. OF THE ILLINOIS STATE BUSINESS DIRECTORY.

PHILANDER SHAW, *Secretary*.

STEPHEN CROWELL, *President*
EDGAR W. CROWELL, *Vice Pres.*

THE AMERICAN PUMP.

This Pump, patented April 5, 1859, is a double-acting force pump, without packing and without suction; exceedingly simple, cheap and durable; has but one bore and one piston; a very small amount of friction and great lever power, causing it to work easier than any other pump in deep wells. A boy works it at sixty and a man or woman at one hundred feet perpendicular, or the money will be refunded.

Warranted in every particular.

Five sizes are made, raising from five to sixty gallons per minute, and costing \$15, \$20, \$25, \$40 and \$60 each. The whole can be GALVANIZED, preventing rust. It will not freeze—is very easy to put in, take out, or repair—having no complicated fixings—will not lose a drop of water in one hundred feet; throws water by hose forty feet; is adapted to

**Cisterns, Wells, Tanks, Railroads, Machinery, Engines,
AND IRRIGATION.**

Works by Hand, Horse, Water, Wind or Steam.

It is now in successful operation in twenty-four States, New Brunswick and Cuba.

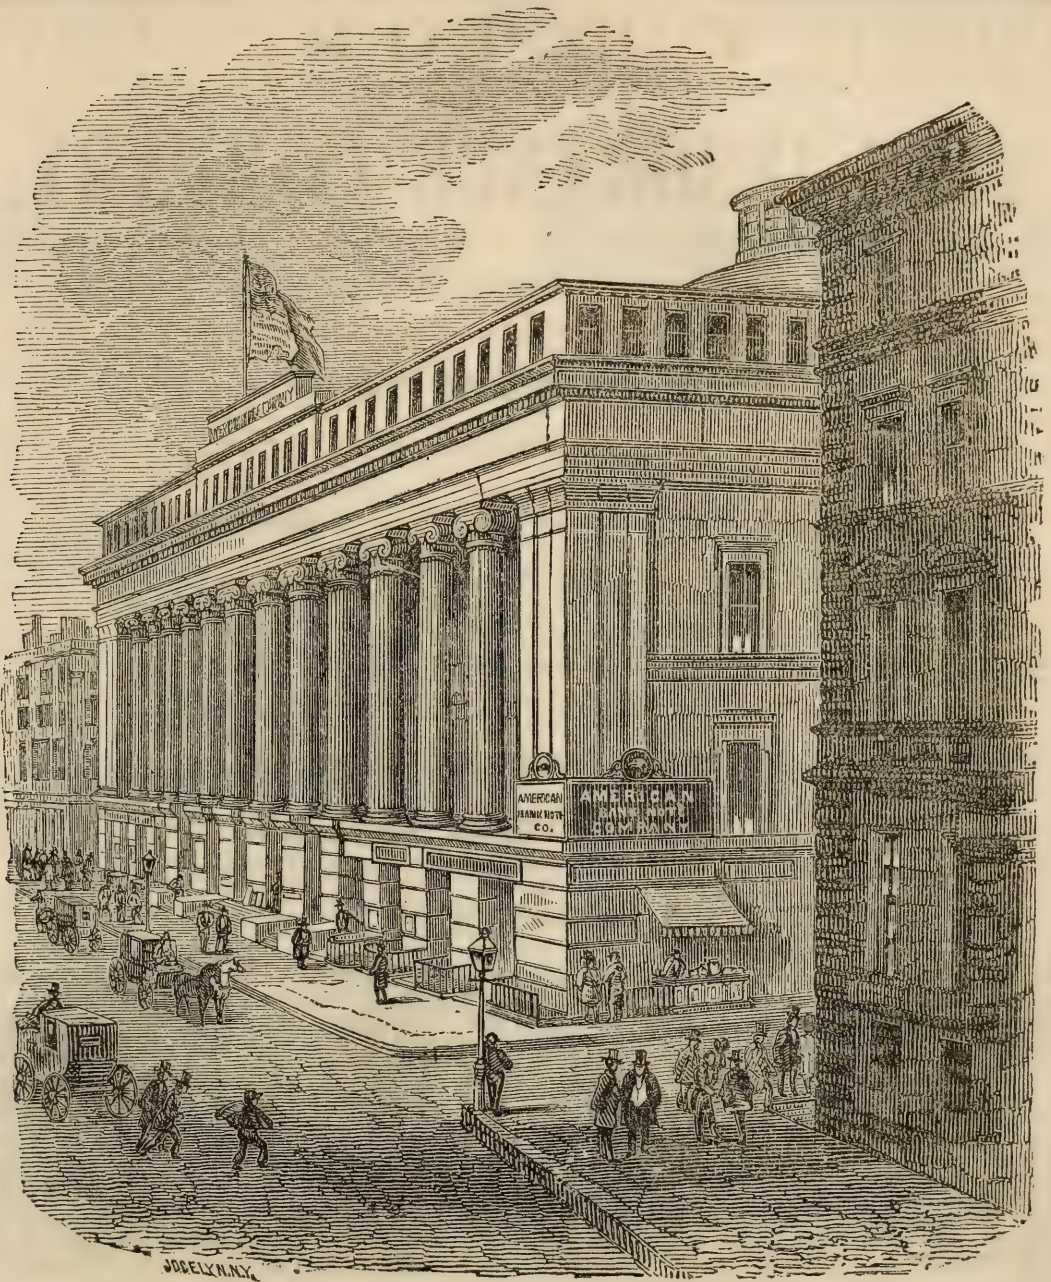

Drawings, Prices and full particulars sent free of postage.

ADDRESS,

JAMES M. EDNEY,

147 CHAMBERS STREET,

NEW YORK.

BANK NOTE ENGRAVING.

THE AMERICAN BANK NOTE COMPANY,

THE NEW YORK TIMES.

An Independent Political, Literary and Miscellaneous Newspaper.

DAILY, SEMI-WEEKLY AND WEEKLY.

The New York Times is the youngest of the daily newspapers of the City of New York. The first number was issued on the 18th of September, 1851,—so that it has only just completed the eighth year of its publication. But it has already become one of the most widely known and most firmly established daily journals of the United States. Its circulation is quite as large as that of any other daily of its class in the City of New York,—and in reputation for enterprise, energy and reliability, it may fairly challenge comparison with any other newspaper in the country.

The TIMES is wholly and entirely INDEPENDENT in its discussions of all topics of public interest. It does not deny or doubt the importance or necessity of Political Parties to the proper management of public affairs,—for all experience shows that in every Constitutional Government, party divisions and party contentions are essential to the preservation of public liberty, and to the vigorous and responsible conduct of the Administration. But while it does not quarrel with party organizations, it declines to be their instrument. Party organs are sufficiently numerous and sufficiently influential already. Every party and every faction has its representatives and retained advocates in the newspaper Press. The great majority of the journals of the United States are directly connected with the party organizations of the country—representing their principles, seeking the promotion of their ends, echoing their wishes, publishing news and speeches, with comments only in their interest,—and being conducted and managed merely as agents for the accomplishment of party purposes. They have therefore, no higher authority and no stronger claim to confidence and respect than the parties they represent. As a general thing they are read mainly by that portion of the public who concur with them in opinion; and, as their statements are always more or less colored by their sentiments and wishes, they command very little attention, and still less influence, beyond the immediate circle of their own partisans.

The TIMES asserts for JOURNALISM a higher function than this. Instead of consenting to be simply the retained advocate of any political party, it claims the right to judge, fairly and dispassionately, *all* parties,—approving and aiding whatever in any of them may tend to the promotion of the public good, and condemning and denouncing everything in all of them which involves detriment or disaster to the country at large.

Its first great aim is to become a RELIABLE NEWSPAPER,—reporting promptly and fairly everything of public interest concerning all parties and all public men,—neither distorting nor exaggerating facts for the benefit or the injury of any, but rendering equal and exact justice to all alike. It does not profess neutrality upon any political issue,—still less indifference to any great political movement;—but while it will discuss everything connected with public affairs, with perfect freedom, and with whatever ability it can command, it will do this, not in the interest, for the benefit, or under the control of any public man, or of any Political Party,—but solely in the interest of Truth and Justice, and for the promotion of the welfare of the whole country. While upon all topics its tone will be firm, vigorous and entirely independent, it will deal in argument rather than invective, in the language of persuasion rather than menace, and will strive to allay, by all fair and just appeals, rather than to increase by inflammatory counsels, the sectional agitation which disturbs the peace and threatens the welfare of the Federal Union. It will insist always upon a faithful adherence to the Constitution, respect for the Judicial authorities of the nation, and a strict compliance with the duties and obligations which devolve upon the citizens of a common country. Upon the subject of SLAVERY, while it will never seek occasion for thrusting it upon public attention, it will not shrink from its discussions whenever it shall be brought prominently before the country, and made the theme of public controversy; but it will treat it as a local institution, the creature of local law, and subject to the exclusive supervision and control of the communities in which it exists. The TIMES will resist every attempt and will denounce every proposition, to wage war upon it from without, or to excite the fears, wound the pride, and arouse the resentments of those States which may be disposed or obliged to permit its continued existence. But it will also oppose every endeavor to extend it into regions now free from its influence, to re-open the Slave-trade with Africa, to impose the laws and the principles on which it rests upon our States, and to exact for it an undue share of influence and of power in the Councils of the Confederacy. It will press upon all sections—upon the South and upon the North—the full discharge of all their duties under the Constitution, and will rebuke and resist every attempt on the part of ultraists, in either section, to promote their own views and objects at the expense of justice and the public good.

The Times will discuss all topics of general interest, in every department of public action, and always in the interest of Order, the Public Peace, and the general prosperity of the community. Its influence will be uniformly conservative, without neglecting any just and safe means of social or political Progress. While it will report promptly and accurately all intelligence of general interest in every department of human activity, it will never pander to vicious tastes, and will exclude from its columns everything that might render it unsafe or improper for general FAMILY perusal. It will seek to promote the public welfare by urging the claims of EDUCATION, MORALITY and RELIGION upon the masses of the people, and in all its discussions it will endeavor constantly to be guided and controlled by the spirit of Moderation, Patriotism and Common Sense. It seeks the confidence and respect of reflecting men of all parties, but makes no appeal to those with whom party success is the first motive of action, and the peace and welfare of the country the last.

In its CORRESPONDENCE, both Foreign and Domestic, the TIMES will not be inferior to any other American Journal. Its REPORTS of Congressional and Legislative proceedings, of Financial, Commercial and General Intelligence, of important Legal and Criminal Trials, and of whatever may have special interest for the great body of the community, will be full, prompt and reliable.

The price of the NEW YORK TIMES, (Daily,) by mail, SIX DOLLARS a year.

THE SEMI-WEEKLY TIMES

Is issued on the morning of every Tuesday and Friday, and contains, in addition to the bulk of intelligence given in the daily paper, a Literary Department, embracing standard novels and tales, and miscellaneous selections of the highest interest. The Agricultural Department is compiled from a variety of sources, many of them inaccessible to the American reader. Price THREE DOLLARS a year; two copies to one address, FIVE DOLLARS; ten copies to one address, TWENTY DOLLARS.

THE WEEKLY TIMES,

Appears every Saturday morning, embraces a comprehensive digest of the news of the preceding week, with attractive Literary features. It will also continue to furnish its valuable information to the Farmer and Gardener, a department which has become highly popular. Price TWO DOLLARS a year; three copies to one address, FIVE DOLLARS; five copies to one address, EIGHT DOLLARS; ten copies to one address, TEN DOLLARS. *Any person sending us a Club of twenty or more, will be entitled to an extra copy.*

TERMS OF ALL OUR ISSUES—Cash invariably in advance.

Specimen numbers forwarded upon application.

As an Advertising Medium, the TIMES has claims to attention, from the extent and character of its circulation, fully equal to those of any other journal in the country.

All letters to be addressed to the "NEW YORK TIMES," New York City.

THE NEW YORK TRIBUNE.

PREPARE FOR THE GREAT POLITICAL CAMPAIGN.

INDUCEMENTS TO CLUBS!!

NOW IS THE TIME TO SUBSCRIBE!

THE TRIBUNE—now more than eighteen years old, and having over a quarter of a million subscribers, or constant purchasers, diffused through every State and Territory of our Union—will continue in essence what it has been—the earnest champion of Liberty, Progress, and of whatever will conduce to our National growth in Virtue, Industry, Knowledge and prosperity.

THE NEW YORK DAILY TRIBUNE

Is printed on a large imperial sheet, and published every morning and evening, (Sundays excepted.) It contains Editorials on the topics of the times, employing a large corps of the best newspaper writers of the day; Domestic and Foreign Correspondence; Proceedings of Congress; Reports of Lectures; City News; Cattle, Horse and Produce Markets; Review of Books; Literary Intelligence; Papers on Mechanics and the Arts, Cookery, etc., etc. We strive to make THE TRIBUNE a *newspaper* to meet the wants of the public—its Telegraphic news alone costing over \$15,000 per annum.

TERMS.

THE DAILY TRIBUNE is mailed to subscribers at \$6 per annum, in advance; \$3 for six months.

THE NEW YORK SEMI-WEEKLY TRIBUNE

Is published every TUESDAY and FRIDAY, and contains all the Editorials of the Daily, with the Cattle, Horse, and General Markets, reliably reported expressly for THE TRIBUNE; Notices of New Inventions; Foreign and Domestic Correspondence; Articles on Cookery; and during the sessions of Congress it contains a summary of Congressional doings, with the more important speeches. We shall, as heretofore, make THE SEMI-WEEKLY TRIBUNE a Literary, as well as a political newspaper, and we are determined that it shall remain in the front rank of family papers.

TERMS.

One Copy, one year.....	\$3.00	Five Copies, one year.....	\$11.00
Two Copies, one year.....	5.00	Ten Copies, one year, to one address.....	20.00

Any person sending us a club of twenty, or over, will be entitled to an extra copy. For a club of forty, we will send The Daily Tribune one year.

THE NEW YORK WEEKLY TRIBUNE,

A large eight-page paper for the country, is published every Saturday, and contains Editorials on the important topics of the times; the news of the week; interesting correspondence from all parts of the world; the New York Cattle, Horse and Produce Markets; interesting and reliable Political, Mechanical and Agricultural articles; Papers on Cookery, etc., etc.

We shall, during the year, as hitherto, constantly labor to improve the quality of the instructive entertainment afforded by THE WEEKLY TRIBUNE, which, we intend, shall continue to be the best Family Weekly Newspaper published in the World. We consider the Cattle Market Reports alone richly worth to cattle raisers a year's subscription price.

TERMS.

One Copy, one year....	\$2.00	Ten Copies, one year.....	\$12.00
Three Copies, one year.....	5.00	Twenty Copies, to one address.....	20.00
Five Copies, one year.....	8.00	Twenty Copies, to address of each subscriber....	24.00

Any person sending us a club of Twenty or more, will be entitled to an extra copy. For a club of Forty, we will send THE SEMI-WEEKLY TRIBUNE; and for a club of One Hundred THE DAILY TRIBUNE will be sent gratis.

Subscriptions may commence at any time. Terms always cash in advance. All letters to be addressed to

REAR OF MARBLE YARD,
CORNER OF
S. Clark and Hydraulic Court,
BETWEEN
Adams and Monroe Streets,
Chicago, Ill.
P. O. Box, 1736.

LANE'S HYDRAULIC POWER

FOR RAISING

IRON, STONE AND BRICK BUILDINGS.

WONDERFUL INVENTION!

The undersigned would respectfully notify

PROPERTY HOLDERS,

That he has made CHICAGO his head quarters for taking contracts from business parties in this city as well as in St. Louis, Cincinnati, Mobile, New Orleans, and

All Parts of the West and South,

TO

RAISE ENTIRE BLOCKS, OR SINGLE BUILDINGS OF IRON, STONE, BRICK OR WOOD, BY HYDROSTATIC POWER.

BEING FAR SUPERIOR TO THE PRESENT METHOD

It Stands Unrivaled For

ECONOMY, DISPATCH,

AND

CONVENIENCE TO OCCUPANTS

From eight years' successful experience in San Francisco, Cal., and other places, I would respectfully invite patronage from all points

WEST and SOUTH-WEST, and in fact

FROM ANY PORTION OF THE UNION,

As my Machinery is simple and

EASY OF TRANSPORTATION,

TO ANY PART OF THE COUNTRY.

ADDRESS BOX 1736, POST OFFICE.

Room 78 Tremont House, Chicago.

JOHN C. LANE.

LAKE SHORE & MICHIGAN SOUTHERN RAILROAD LINE.

CLEVELAND & ERIE RAILROAD.

THIS ROAD LIES ALONG THE SOUTH SHORE OF LAKE ERIE,

Between Cleveland, Ohio, and Erie in Pennsylvania, and is 95½ miles in length. The alignment and grade of the Road is remarkably favorable, being almost an air line, and the grades only fifteen feet to the mile. It forms a link in the

GREAT LINE,

FORMING

THE ONLY DIRECT AMERICAN RAILROAD

Connection between New England and the Western States and Territories.

BUFFALO AND ERIE RAILROAD.

ALL THE TRAINS GOING EASTWARD

CONNECT AT DUNKIRK WITH THE TRAINS OF THE NEW YORK & ERIE R. R.,
AND AT BUFFALO WITH THOSE OF THE NEW YORK CENTRAL AND
BUFFALO AND NEW YORK CITY RAILROADS, BETWEEN

Chicago, New York, New England & the Western & Southern States.

ALL EXPRESS TRAINS from the East arriving at Buffalo or Dunkirk, make sure connections with Trains of this Line.

FOUR EXPRESS TRAINS leave BUFFALO daily for CHICAGO, connecting at Cleveland with the Cleveland, Columbus and Cincinnati, and with the Cleveland and Pittsburgh Railroad.

AT SANDUSKY, with Mad River and Lake Erie Railroad, and with the Sandusky, Mansfield and Newark R. R.

AT TOLEDO, with the Toledo, Wabash and Western Railroad.

AT CHICAGO, with all the Railroads for the North, South or West.

BAGGAGE IS CHECKED THROUGH TO BUFFALO, and the Checks are changed in the Cars before reaching Buffalo, for CINCINNATI, CHICAGO or ST. LOUIS, thus saving the Passenger the trouble and perplexity of re-checking in a crowded Depot!

CHANGING CARS IS DONE IN THE DEPOTS OF THE LINE, without exposure to the Night Air and Inclement Weather.

THROUGH TICKETS BY THIS ROUTE can be obtained at all the Principal Ticket Offices in the United States, and in Buffalo, at the Company's Ticket Office, Exchange Street Depot, also at the General Union Ticket Office, No. 17 Exchange Street.

WILLIAM R. BARR,

BUFFALO, APRIL 16, 1860.

GENERAL AGENT, BUFFALO.

FOR BOSTON

VIA

NEWPORT AND FALL RIVER.

THE BOSTON & FALL RIVER LINE.

BY THE SPLENDID AND SUPERIOR STEAMERS

METROPOLIS, BAY STATE, AND EMPIRE STATE.

Of great strength and speed, particularly adapted to the navigation of Long Island Sound, running in connection with the

FALL RIVER AND OLD COLONY RAILROADS,

a distance of fifty-three miles to Boston only.

Leave Pier 3, North River, near the Battery,

The Steamer METROPOLIS, Captain Brown,

on Tuesdays, Thursdays and Saturdays, at 5 o'clock P. M., touching at Newport each way.

The Steamer EMPIRE STATE, Captain Brayton,

on Mondays, Wednesdays and Fridays, at 5 o'clock P. M., touching at Newport each way.

The Steamer BAY STATE, Captain Jewett.

These steamers are fitted with commodious state-rooms, and every arrangement for the security and comfort of passengers, who are afforded by this route a night's rest on board, and on arrival at Fall River, proceed per railroad again, reaching Boston early on the following morning.

A baggage master is attached to each steamer, who receives and tickets the baggage, and accompanies the same to its destination.

A steamer runs in connection with this line, between Fall River and Providence, daily, except Sundays.

Freight to Boston is taken at the same rates as by other regular lines, and forwarded with the greatest expedition, by an Express Freight Train, which leaves Fall River every morning (Sundays excepted), at 7½ o'clock, for Boston and New Bedford, arriving at its destination at about 11 o'clock A. M.

For freight or passage apply on board, or at the office on Pier 3, North River, where state-rooms and berths may be secured. Hereafter no rooms will be regarded as secured to any applicant until the same shall have been paid for. For further information apply to

THE NEW PLAN OF INSURANCE,

INTRODUCED BY THE

Continental Insurance Company,

OF

NEW YORK,

WITH A

Cash Capital of\$500,000.00

AND A

Surplus of\$446,572.73

OFFERING

THREE-FOURTHS OF THE PROFITS

Of the business to Policy holders, and INCREASED SECURITY to the assured from year to year, as the business progresses,

AND NO LIABILITY INCURRED

ON THE PART OF THE ASSURED.

The business of the Company since its organization has been most satisfactory to stockholders and customers, while the sales of stock have shown that it is appreciated by capitalists.

The attention of the community is respectfully called to the following features in connection with this Co.:

By insuring in this Company, the advantages of a Mutual Insurance Company are obtained, with the additional advantage afforded in the security given by an ample and reliable Cash Capital—a feature not presented by ordinary Mutual Fire Insurance Companies.

Application can be made to the Agents throughout the State of Illinois.

For the development of the plan adopted by the Continental, the effect of which is to combine reliable and constantly increasing security with the lowest possible cost to the insured, and by which the Company means to prove the truth of the position that that course of dealing which is for the highest good of its patrons will also be for its own ultimate and permanent advantage. The large dividends made to customers, viewed in connection with the steady increase of the Company's assets, establish the claims of the participation system beyond all cavil or gainsay. They are as follows:

July, 1856, Gross Assets....	\$592,353.91	Liabilities....	\$21,990.48	
" 1857, " "	659,576.82	" " " "	9,757.28	Dividends.....83½
" 1858, " "	764,804.17	" " " "	12,835.65	" " " "50
" 1859, " "	905,681.84	" " " "	16,514.87	" " " "50

It should be borne in mind that there is no division made by the Continental either to stockholders or policy holders in cash or scrip, except of money *actually earned*, the unearned premium being carefully ascertained and a fund equal to the amount thereof reserved before any dividend whatever is made. The dividends of the Company, therefore, represent in no case merely increased amount of unearned premium, but *actual earnings*, which add to their full extent to the security of the insured.

The healthy increase of the business of the Company since its formation is illustrated by the following statement of premium received:

The net premium for 1853 amounted to....	\$ 96,417.16	The net premium for 1857 amounted to....	\$183,090.95
do. 1854 do.	125,682.11	do. 1858 do.	218,446.40
do. 1855 do.	136,376.53	do. 1859 do.	265,085.14
do. 1856 do.	159,508.68		

And from the fact that of all the profits upon the business since July, 1856, (the period when the participation system was adopted,) but \$65,000 have been divided in cash, the remainder having been allotted to the customers of the Company, and scrip issued for the same. This accounts for the increase of the assets of the Company since July, 1856.

THE MUTUAL LIFE INSURANCE CO., OF NEW YORK.

FREDERICK S. WINSTON, Pres't.

Office, No. 94 Broadway.

CHICAGO OFFICE, NO. 6 CLARK STREET.

NO. 2. LOOMIS BUILDING.

This Company offers the following peculiar advantages to persons intending to insure their lives:
Its Assets are larger than those of any other Life Insurance Company in the United States—amounting to over
\$6,000,000, and are **EXCLUSIVELY CASH**.

The proportion of its Cash Assets, to the amount at risk, is greater than that of any other Life Insurance Company in the United States.

Its rates of Premium are lower than those of the majority of other Life Insurance Companies—yet its dividends have been greater; the result of a very low rate of mortality among the insured, consequent on a most careful and judicious selection of lives.

The Mortality among its members has been proportionately less than that of any other Life Insurance Company in either America or Europe whose experience has been made known—a result in the highest degree favorable to Policy holders.

The number of Lives insured in this Company greatly exceed that of any other Life Insurance Company in the United States, thus affording a security above them all—the necessary law of average having more scope for operation.

The Assets of the Company are invested exclusively on bond and mortgage on real estate in the City and State of New York, worth in each case at least *double* the amount loaned, and bearing interest at seven per cent.: the solidity and security of this disposition of the Company's funds cannot be overrated.

* * * Parties intending to insure are respectfully requested to obtain this Company's publications, which afford a variety of information beyond the limits of an advertisement. They can be had (gratis) at the principal office, No. 94 Broadway, at the office in Chicago, No. 6 Clark street, or from any of the Company's recognized agents.

R. F. MASON, Agent, Chicago.

NOTE.—The business of this Company is conducted on the *Mutual* principle, in the strictest sense of the term; the entire surplus, deducting necessary expenses alone, being equitably divided among the assured.

The following descriptions of Policies are issued by this Company, the premiums on which are payable yearly, half yearly, or quarterly, at the option of the party assured:

1st.—*Life Policies*.—These are issued for the whole term of life, payable together with the declared profits, at the death of the party assured, to the person entitled to receive the same.

2d.—*Life Policies, with payments of Premiums to cease at given ages*.—These are also payable with the profits, at the death of the assured, but the entire premiums necessary are paid before reaching the stipulated age.

3d.—*Endowment Assurance Policies*.—These are issued to persons desirous of making a provision for advanced life, or any other purpose, and are payable to the assured party on attaining a certain age, say 50, 55, 60, or 65, or in case of his death before arriving at that age, to his heirs or assigns.

4th.—*Endowment Policies for Children*.—These are payable when a child attains the age of 18, 21, or 25 years, or upwards, either with or without the return of the total premium paid, in case the party assured does not attain the specified age.

A dividend of forty per cent. on all participating premiums received since the first of February, 1853, was declared on the first of February, 1858. This dividend of 40 per cent. was intended to be applied in each individual case to the purchase of an additional amount of insurance, payable, in all instances at death, or with the policy itself, provided the same be kept in force. This additional insurance, or reversionary dividend, varied, according to the age of the party assured, from 120 to 47 per cent. upon the total participating premiums paid since the 1st of February, 1853. Persons, however, to whom a reduction of premium, after each declaration of dividend, would be desirable, can effect their object by surrendering such a portion of their policy, with its corresponding amount of dividend, that the remainder, together with its corresponding amount of dividend, shall be exactly equal to the original amount insured.

Annuities are granted by the Company on favorable terms.

MAYNARD & NOYES'

Black Writing Ink.

Established 1816.

TESTIMONY OF PARTIES WHO HAVE USED IT FOR MORE THAN A QUARTER OF A CENTURY.

REGISTRY OF DEEDS OFFICE, BOSTON, JANUARY 10, 1859.

SRS. MAYNARD & NOYES,

GENTLEMEN:—I am glad that longer use of your Writing Ink enables me to repeat the testimony given in its many years ago. I have used it in this office thirty-seven years, and my oldest records are as legible and as when first written. This rare quality for permanence renders it invaluable for State and County Records, all mercantile purposes, where it is important that the writing should remain legible and unchanged in color the lapse of time.

HENRY ALLINE, Register of Deeds.

MAYNARD & NOYES' COPYING INK.

This Ink yields a copy as distinct and perfect as the original. It also combines all the properties of our writing ink, for which it can be substituted.

MAYNARD & NOYES' CARMINE INK.

This article is a beautiful red or crimson color, and surpassingly brilliant and rich. It is free from sediment will not mould, fade, or turn dark by exposure to the air.

The above popular Inks, together with Blue, Red, Indelible and Stencil Ink, Chemical Writing Fluid, Ink der, &c., is for sale by the Manufacturers, Nos. 51 and 53 Water street, Boston, and by all Stationers Booksellers in the country.

HENDERSON'S

PATENT ALBANIAN HEATER.

This is the most extraordinary generator, radiator of heat, and economizer of coal, ever made. It is constructed on an entirely new principle, producing the most perfect combustion, and the greatest amount of radiation thus supplying the purest and mildest heat, and overcoming the many objections to the hot-air furnaces generally in use. It is the only heater that will burn Bituminous coal, and make perfect combustion of all kinds of equally well.

It has advantages over steam or hot water furnaces in purity and mildness of heat, at one-quarter of the expense, and avoiding the danger of explosion, bursting of pipes, flooding the building, defacing the walls, &c. his furnace the following results have been obtained:

First—Economy of fuel quicker generation and greater radiation of heat, by the burning all the volatile combustible of the coal in the cone or second chamber, thereby allowing no gases or soot to escape to choke up the or pipes.

Second—The cold air is excluded from the cone or combustion chamber; in this the order of combustion as generally understood and used in other heaters is reversed. The peculiar shape of the combustion chamber acts the heat downwards, raising the temperature of the atmosphere within to a height sufficient to consume the gases and ignitable matter. The outer or radiating chamber is so constructed, that no more heat than is necessary to produce a good draft escapes into the chamber, but the greater portion is thrown off by radiation.

Third—We claim, and what may be considered a great improvement above all other heaters, that the reflection of the heat from the cone into the body of the ignited coal, causes a perfect combustion of it, and radiates a greater amount of heat from the same amount of fuel than any other heater in use.

From the various tests that have been made with this heater with the several varieties of hard and soft coal, we have no hesitation in offering it to the public as the best Smoke and Gas Burning Furnace ever made. we feel assured that we can produce and radiate off a greater amount of heat from half the quantity of fuel, any other heater of a similar size or description in use.
